of The Canadian Duty Perspace Association Member
for Street Member of the Audit Surpan of Oreclaidor.

A Reasonable Critic Answered We have received a copy of a brief which Edward Ruse submitted to the special joint committee on the Canada Pension Plan.

Mr. Ruse is 58, a native of Japan rama-matics and economics graduate of the University of Manitoba, a wartime tail-gunner in the RCAF, an actuary and a resident of Toronto.

This makes Mr. Ruse an interesting person-

This maken Mr. Ruse an interesting personality.

What makes his brief equally interesting is fix close reasoning and the evidence it contains of a deep interest in social justice.

Mr. Ruse does not think the Canada Pension Pan is compatible with social justice.

Mr. Ruse does not think the Canada Pension Pan is compatible with social justice.

Mr. Ruse does not think the Canada Pension Pan is compatible with social justice.

Mr. Ruse is have neither Mr. Ruse's training nor his self-evident intimate acqualatance with all the intrinaction of the Pan is no real handledge in this task, since our disagreement with Mr. Ruse's opposition to the plan arises from the basis of viewpoint, rather than of facts. Mr. Ruse is interested in principles; we are mainly concerned with what is practiced.

Mr. Ruse thinks highly of Canada's cristing universal old age security penoson, as compared with the U.S. compalsory, contributory social security program.

security program.

We agree wholeheartedly. In this column have expressed this viewpoint time and

again.
The practical difficulty is that it is impossible, (even if it is desirable which-it open to debate), to "self" the country on universal old ago pensions at a level which will enable all Canadians, in a phrase quoted by Mr. Ruse, to "retire in security and with dignity."
The majority of Canadians atill believe,

rightly or wrongly, that security and dignity are privileges which individual Canadians should aceges which individual Canadians should ac-for themselves, through hard work and

privileges which individual canadians should acquire for themselves, through hard work and tharft.

It is that for which Mr. Ricks works, have esconsigned the purchase of insurance with any subjectives, or, in more recent years, the establishment of company pennson plans.

Time work, however, several things wrong with these pennsons plans. It many instances, simplyces loot their pension rights when they moved to another company. Not all companies, with the pennson rights when they contained amongst those who were the best paid, in industries where unions were given gor companies prosperous.

Ontario legislation, which came into effect this year, provides for portability of pensions, but only within the province. The Camada Fension Plans. This is true, because their works are the companies of the came the companies of the compan

Frankly, we doubt whether anybody can ac-curately predict what will happen forty years from now. Who, in 1925, would have dreamed

From now. Who, in 1925, would have dreamed that we would consider a universal pension of \$75 a month at 65 inadequate to guarantee retirement. "In security and with dignity."

The Canada Pension Plan is not the last word in caring for Canadians who are too did to work; it is just the best proposal made so for which has a charact of winning the accuracy. far which has a chance of winning the approval of the majority of Canadians.

By Geo. H. Carver Sports Editor

It is common knowledge that the Russian nation has improved over the years to the point whey are rated the top "amateur" club in the world.

It would seem from the arrogant attitude of the tilonal coach, one Lieut-Col. A. Tarasov that the aprovement has gone beyond their "feet." It ached their heads in alarming proportions.

arasov, a Canadian newspaper correspondent wrote, a spectator at the game and was rude and crude in observations made to Canada's ambassador, Robert

The succeing Tarasov is quoted as saying. "Why do you insult us by sending such an inferior team to play us? Why can't you send us a good team some day?"

And Tarsor, who works for the largest club ow-ers outfit in the world, is reported to have written as article in a Red newspaper in which he said that during the Russian hockey tour last fall, Rocket Rich-ard and Jean Bellevau were so impressed with the Russian style they asked for the on training and

And over there in the shadow of the Kremlin, the "bad dog" name given Canadian hockey teams the first time they played in Europe has lost none of

It could be the strange silence of the crowd-packed Lenin Sports Palace was due to the Canadian's lack of "head-cutting, chopping, stick swinning and wrestling tactics" so long associated wit httem.

One English-speaking Russian sized up the situa-tion, "Anyway," he remarked, "this isn't one of the Canadian hooligan teams."

Cansama notagan teams."

Perhaps Transor's point was well meant but be didn't have to air it in such a crade almost insulting manner. It is true that we have sent second-rate amsteur clubs to Russia the past year or so—and they were clobbered but good by the superthy conditions well coached (international rules) Red equads.

The Russian national coach expressed the opinion would like his citth to play a National Hockey League m during the Red tour of this country last year.

rt, quit playing with that window!"

# everything's new but the funand that's a corvair exclusive

Take a good look at this '65 Corvair. Different, eh? It ought to be, it's the rakish new ardtop that's all-new, from the ground up. It's like nothing else going. That's only right and proper, since there's no other car like Corvair, anywhere.

And this year, Corvair's even more of a sport than ever before. There's an adventurous new Corsa series at the top of the line, plus hardtop styling on all closed models. That makes every Corvair sedan into a glamorous sports sedan and every bit as much fun as the popular coupes and convertibles. Under that beautiful new

#### Escalation

In Haworth, New Jessey, police uncovered a gambling casino run by isonagers for tennager. Farents were shocked.
Farents were shocked.

The start of vely rare.

Yesterday's bicycle has become today's aport

car.

The twice-a-year high school "prom," with a school orchestra playing and dancing a daring innovation, has burgeoned into graduation balls, with corsages, evening gowns, tuxedos and gay "until dawri" aftermaths.

"until dawn" aftermaths.

Why should not the penny ante poker game move from a hillside shack made of packing boxes to the basement of one of those homes designed gracious living?

After all, gambling is fashionable today. All

Arter an, gamning is rasnonance today. All e best people go to race tracks.

The principle of the thing is not much anged—just the cost.

There is, however, one troublesome feature.

There is, nowever, one troubestum resource. In the old days, most male parents were qualified to teach Junior the hazards of attempting to draw to an inside straight. Not every parent today is equally well equipped to give elementary instruction on dice, black jack, chemin de fer

Here, as in so many other areas, life is get-ting much too complicated.

#### Breakfast-Grrr.

Peace has just been restored in the editorial room and we have learned a valuable lesson, which ought to have been assimilated about the time dispers were discarded. The lesson: always read all of what a person has written-or listen to all of what they have to say-before picking a quarrel with them.

What started the row was the suggestion, in Gladys Ward's "Speaking Personally" that the whole family should be got up at least half an hour earlier than usual in order to "enjoy a leisurely breakfast together."

"Start every morning off in gay spirits," she advised, quoting the consumer section of the Federal Department of Agriculture.

Then, bies her, she lapsed into parentheses and her own words and ideas: "If your family belongs to the slow starter group they will be gay as Dracula and will probably fire three rounds of grapefruit julce in your eye."

Hright True. Deserve it, too. Nobody should have to be gay at breakfast. Nobody should have to get up before breakfast. Nobody should have to wake up before breakfast. Nobody should have to wake up before breakfast to inflict themselves on another unbreakfasted

The diverce rate could be cut in half if the sums wasted on recreation rooms were expended on providing each member of the family with a breakfast room of their own. This would adve the problem of arranging a, breakfast schemits of arranging a, breakfast schemits on the problem of arranging a, breakfast schemium so that no two people eat at the same time, and eliminate the hazards of coming to the table before one's predeceasor is finished or lingering until one's successor ancears on the scene. until one's successor appears on the scene

"Serve a variety of foods," says the Depart-

ment of Agriculture.

There was a time when departments of agriculture were concerned only with the appetites of cows and pigs and such-like. Burl' it time it retreated to its proper domain and left humans alone? Variety, indeed! The one thing that is not required at breakfast is variety. Variety involves choice. Choice involves decisions. Decisions are an after-breakfast dish. One food, ready to est, close at hand. That's breakfast And quiek, pieuse. Does that cat have to go stempting around on the breakfand on the breakfast.

In England, a research centre at London is making progress with experiments in floating hospital patients on air. We hope this idea is gently deflated.

The fragrance of the flower is never borne against the breeze, but the fragrance of human virtues diffuses itself everywhere.—The Rama-

## There's much, much more to the Pontiac success story than outstanding good looks

Pontiac's new perimeter chassis gives you greater strength and rigidity for a quieter, safer ride. Its improved suspension gives you new smoothness on the roughest country roads. Its new wider track gives you improved cornering power, Its new steering gives new meaning to precision handling. Its bigger doors and flatter floor give you even more room and travelling comfort, And you get famous Magic-Mirror finish, Body-by-Fisher quality, waterwashed air-dried rocker panels, Delcotron generator, deep twist carpets, foam cushioning, cigarette lighter, dual sunshades, locking glove box, 2-key locking system, crank-operated ventipanes and the widest Pontiac choice ever;

40 models, 17 colors, 4 transmissions, and engine and tion ranging from 140 hp in the economical yet lively Astro-Six to 400 hp. All of which proves rather concine sively how one success can lead to another.

By Geo. H. Carver Sports Editor

The four lockers readying the whip and spur for it all gallon for the figure loot and the Stanley pewter-re, are confident liker nags will break the figurative e shead of the pack.

That's just about the size of it. The Maple Leafs club that can get hot overnight—have given the Hawks big trouble this year while they have broken even hisontreal—and bested the Red Wings.

I has been suited the Harks have failed is win the blg" ones after being four close brilles to the Cambidess. Rays discounted this, claiming the games error closy ones and could have gone either why, but the same that will got those they seem to have shaken the big slump,

He said the Leafs always seem to be ready for playetts but he doubted if they would finish in it place. "They hurt their chances by losing a me to Boston and lotting a pair to the Rangers or weekend."

The Detroit Red Wings have knocked off the Hawks the first round of the Stanley Cup these last two sons, which may be why the Wings haven't given the was much trouble this season, he said.

Be that as it may. It seems the Red Wings have caught fire—and it couldn't happen at a better time for them. They ripped through two valuable velocited over the weekend and at the memont are breathing down Canadiens' necks.

Injuries saight affect the order of things, said Reay. "We've been hit in the last six weeks. Bobby Hull has been the hig one.. If he can get going again our chances look good. But in hockey y need your share of the breaks."

And while on hockey, Canadiens' coach Toe Blake told a Montreal columnist the other day that the trouble with hockey development today is that youngsters are being overcoached.

"It seems to me," said Blake, "that the fun has cen taken out of the game at the pewere level. As a realt of an accent on champiouships, and either errocaching are inadequate couching any way you nat to phritch, it, were having a problem feeding re six NHL teshan."

"By the time a boy hits junior competition he's fed up with pressure beckey and looks for other re-creational sports. I don't know what we're going to do about it, but the distation is serious enough to worry the near in charge."

"There's talk of expanding the NHL," said Blake,
"but it's going to be difficult talens we put some fun into hockey for the youngsters. We're locking too many potential pre players by the time they reach junter ranks." \* \* \*

Former Chicago coach Rudy Pilous told a Van-couver banquet of the time Andy Bahgate and Bobby Hull were going for the scoring tills in the last gene. With a minute left Pilous ordered Red Fleming to keep Bathgate from scoring which he did by spearing him.

Referee Frank Udvari signalised a delayed pear.
Fierre Flote yelled to his mates not to touch
Ranger puck carrier so the only vary to stop the
was to score. The buxers resunded with Frenbolding Bathgate, Udari holding up his arm and
Rangers bolding feelish.

#### Aces Grab 2-0 Lead

HULL, Que. (CP)—Kingston toes defeated Hull Volants 7-2 fooday night to take a 20 lasd in their best-of-seven semi-disable in the Ottawa St. Labals in the Date Jones and Ron Earl led be winners with 2 goals spiece, while Peter Weston, Fred Curna, and Bob Bawson scound

les. Gilbert Seguin Louis Seguin, scored

Hull. The next game is Wed day night in Kingston.

Pre-eminence Of Language Said Necessity

MONTREAL (CP) - Pres Jean Leage Monday bermed pre-eminence of the French lan-guage in Quebee "a wital meca-sity" to sissure survival of French culture in Canada and to increase Canada's resistance

in Ottawa.

Mr. Lesage said the government does not intend to legislate in favor of one language in Quebec because "this would be putting the eart before the TENDER FOR TRUCK

In. up until 5.00 p.m. was a special to the control of the control

French institutes of highe learning.

"This abusive use condition our future engineers, doctor and technicisms to conside French a language of secondar importance and French con-tinguisms of secondar importance and French con-tinguisms." In a said.

Welcome!

Your Cadillac dealer looks forward to showing you the 1965 Cadillac. He is certain that you will appreciate its striking beauty and incredibly smooth performance. You may even be amazed.

No matter how many Cadillacs you may have owned or admired in No matter now many 2 sames you may have owner or auturned in the past, we think you will agree that the 1965 model is outstanding in every way. Its appearance is commanding in any situation. Its thoughtfully planned interiors provide even greater spaciousness and comfort. Its beautifully poised ride and silently surging performance make mioring restful and relaxing as never before. Of course, the Cadillac of your choice can be tailored to your individual requirements—even to the inclusion of a luxurious Comfort Control system that automatically maintains interior temperature, from season to season, with a single setting. In view of the very newness of the 1965 Cadillac, we suggest that you visit your authorized Cadillac dealer. Rest assured, you will be warmly welcomed.

So new! So right! So obviously

#### The Aging Labor Hierarchy

According to an article by Damon Stetson in the New York Times, some leaders of the American Federation of Labor and Congress of Industrial Organisations are beginning to worry about the age of the members of the executive

Fifteen, more than haif, of the organiza-tion's top policy makers are 65 years old or over, nine are 70 or over and one is 82. Because a great many Canadians are members of U.S. labor unions, this is of concern to Canada, as well as to the U.S.

Lebor unions have attained such an infli tail position in the nation's common that their policies have a bearing on the lives of almost all of us. At the same time, we suggest that the mere age of labor's policy makers does not automatically mean organized labor and the country as a whole would be better off if these country as a whole would be better off if these men were replaced by younger leaders, in closer touch with the temper of the times and with changed conditions and the altered outlook these have produced.

It is dangerous to generalize about labor unions, for they come in all types and sizes. Nevertheless, in any consideration of the labor movement we ought to give some attention to

its history.

Some unions were really outgrowths of the medieval guida, and perpetuated the guidatendencies to impose certain standards for memberathy, (generally with a view to restricting the number of people practising a trade), thereby controlling competition. The remnants of this approach can be seen today in "feather-bedding approach can be seen today in "feather-bedding" demands that out-moded methods be used or useless work be done, with the unions that retain 'this practice being, in the main, "craft unions" in which the members all practise the same trade.

Other groups of unions deal with people in upations never governed by guilds, or else y were from their inception divorced from they were from their inception divorced from the guild outlook. Some of these unions, at least at the beginning of their history, were concerned not merely with the lot of their mem-bers but with the conditions of the working class as a whole. Their organisational forms varied greatly. Some times they were really craft unions with a history of strife against terrible working conditions, such as the United Mine Workers which now shelters in its fold many workers who have nothing whatever to do with mining. Sometimes the unions tried to take all the economy as their balliwick, like the Independent Workers of the World, or "Wobbles," the cause of so much strife in the U.S. forty years or more ago. Sometimes, they were industrial unions in the modern style, organizing all workers within a

Older labor leaders are likely to reflect, to some degree and invarious fashions, the history of the union which they represent, and because union histories vary so greatly the attitudes of the leaders will vary.

Young labor leaders are more likely to be the control of the same cloth. They are valled to the control of the same cloth.

Young labor leaders are more likely to be tot from the same cloth. They are really executives, and many of them act the part, hav-ing a liking for the delegation of authority and the projection of trends from statistical informa-tion, like today's breed of management; execu-tives. Get them all in the same dome sind the property of the pro-ton of the property of the property of the pro-ton of the property of the property of the pro-ton of the property of the property of the pro-ton of the property of the property of the pro-ton of the property of the property of the pro-ton o language, though to opposing purposes.

language, though to opposing purposes.
Substituting young leaders for old would aiment certainly result in a change in approach to many problems. It is not clear, though, that this change would necessarily be beneficial to society as a whole. The acceptance of modern methods of production is certainly destrails and the elimination of "resther-bedding" practices would, in the end, benefit not only the concurry unton involved. On the other hand many would like to see the labor movement relating that concern for social justice which was a moving force in the organization of many unions and would not consider a drive for the scalation of ringe benefits and security measures for the social process of the control of the co union members only as an acceptable substitute for the old wider concern.

In organized labor as in many other fields,

young, energetic men with modern ideas are needed, but the old-timers had some good ideas,

We think our civilization near its meridian. but we are yet only at the cock-crowing and the morning star.—Emerson, in Politics.

STILL MORE PROOF! \$5.81 SAVED!

"There's no denying it. Comparing quality for quality, brand for brand, on a 2 week order, Food City was much lower in price than my regular food market. I paid \$75.04 for my Rite-Way Food City order after I shopped the same order at another store the very same day and paid \$80.85.

says Mrs. Audrey Brown, 94 Frankford Street, Trenton.

I shopped both stores the same day and bought the same items, weights and brands.

She proved what we've been telling you ever since we opened...food prices are lower every day of the week as Riteway Food City on over 6,000 Items...ne'i just a handful of weekend features. Mire. Brown spent 580.85 at her regular food store.—a large local chain. On the same day she shopped the identical order at Food City and paid only 375.04 for this mane order.

She was selected at random and received no reward beyond being given the food bought at the store where she shopped regularly.

It really is true. You can expect more . . . get more at Rite-Way Food City every week.

Exceptional food savings are available every day of the week at Rite-Way Food City over 6000 quality items discounted Monday through Saturday.

Prospects of Johnson

#### Prospects of Johnson Visit to Moscow Dim

By ARCH MacKENZIE
Canadian Frees Staff Writer
Fremier Kotygin has sald it
would be "pleasant" to entertain President Johnson in the
Soviet Union and Johnson has
not backed away publicly from
his statement that he would be
glad to go.
But the prospects for such a

In fact, perhaps because of that and domestic preoccups toos, the president is silen about his previously-amounce object to visit Latin American And there apparently is not his stirring about Prime Millia for Ferancia January invite to call at Ottawa. The target date there had been Ayril too the call at Ottawa. The target date there had been Ayril to the call there had been Ayril to the call there had been Ayril to the call the cal

And there apparently is not disputed in a stirring about Prime Mini ter Pearson's January invition to call at Ottawa. The taget date there had the Russian primary Monday on tentative plan for Johnson to visit Moseo when American and South View Insmess plane crossed the Compania. North Viet Nam bowless of the Companial Name Viet Name Name Viet Name Name Viet Name Name Viet N

attack Toesday—sald by the U.S. to have been conducted against Communist supply lines feeding Viet Cong goverillas in South Viet Nam—as aggression by "barbarous pirates." This is not an atmosphere conductive to setting up friendly direct personal contact between heads of state.

Washington observers, whi agreeing that a sudden shift in the international climate couchange things, still see no so ming in the tough U.S. determ attom to stay in South Vi-Nam.

Into a control of the control of the

#### Negro Member Considers Issue Closed

TORONTO (CP) — The first legislature took a fin legislature took a finne minutes at the start of titing Tuesday to purge its what had been interpret yome as a racial siur again on the comparate Braithwaite (I.—Eto khe), only Negro among its members.

Leonard Braithwalto (L.—Bio cocke), only Negro among © 108 members.

Premier John Robarts, Ope pittos Leader Audrew Thom oon and L. C. Henderson (PC Lambtom East), made hri statements regarding a new spaper report which said & Braithwalto had been becklifrom the Conservative bench in racial overtones.

Them Mr. Reithwalts da

ing the house he regarded M Henderson as a gentleman as he considered the issue close Mr. Henderson, on a point privilege, said he wanted clarify statements credited him in the newspaper report DOESNT RECALL.

To not recall making as 450th remarks, but if I did a

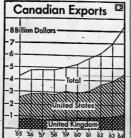

had the account of the beautiful of the control of

the illegal operation of cream vending trucks in riding. "Chocolate or vanilla?" Conservative was reported have said, "What about wa

presented stockerts, in a preband at a te ment, suggested to large misunderstanding. There had be sue-three recel trainness where asides on the floor of the house later had it allowed to the superior of the superlain that I speak for all hoose able members of this boss when I say that we would us at any time tolerate comment at any time tolerate comment of the bosonic of the work of the this house, or that would smach has been a superior to the beautiful supertible to the superior of the bosonic of the last posses, or that would smach have yet of the prejudice of

the functions here to over trative functions here to over transfer and to lay to rest for ever." Said Mr. Braithwaite: "M. Speaker, I have heard the remarks of the honorphile member (Mr. Henderson) and in a most honorphile member and a gentleman of this house, a gentleman of this house, members of this house, seen

gentleman of this house, I commission in the second except, as I trust all honorable of public hearings at the embers of this house accept, test Laurier Hotel. The 1 s statement and so far as I hearings end today, a n concerned, I consider the atter closed."

EXPORTS SOAR—Canadian commodity export limbed to a record \$3,933,900,000 in 1964, sidding to pattern of annual increases which started atterreilling out périod in 1866-188. Commids \$4,837,000,00 ad to the United States in 1964 totallos \$4,837,000,00. Export to the U.S. and U.K. have generally followed the sam attern as total exports during the last 10 year except for a dip in exports to the U.S. in 1960 at 1961.

## Canada's Constitution Said 'Outdated' in Briefs

OTAMA (CP)—Four Preach-universities and colleges, said mainin organizations were six if Canada is to develop as insed by a group of English-is unified society, "a mu cheaking university professors in higher degree of second - Isa-calling Tuesday for a revision groups competence is going to Canada's "confidence" contils be required from many Canadian.

# PORT

By Geo. H. Carver Sports Editor

The conviction without trial took place behind the of doors of the Australian Swimming Union. The in precident stated the specific reasons for her ex-tended to the specific reasons for her ex-don will never be made public."

The only reasons made public were that the four filly defind a union order forbidding them to take part in the opening Olympics coronomies in Tokyo. These, the union claimed "were too calcauding."

It is noted that the Australian Union took no ion at the time. And Dayn France went on to ablish as unmatched record of three gold medals

There is more to it than that. By its own admis-n the Union hints that personal conduct of top stars hin the Olympics Village is behind the edict.

One official stated: "Many of our charges are school girls of around 14 years of age. They sungaters are proue to the example of older swin-mers. When the example is a world chamiless such as example is intolocable. There has been gener-sally a breakdown in the behavier of Australian girl

She sidmit so gorring brezil on steak, beer and ke traum. She stept "la" when the felt like it. She deficis substity. In five Oxympic vallages she created "lacidente." In Tokyo the was arrested for stealing a polecamer's likelyot. In Najoshe she erams the wrong distance after a wine, and chicken party. Once the freggit do do he evindaling tranks and startled of field with her melliy. In Adelsife she speet a night in jayl after an alteration with a polecama.

She wrote a book, "Gold Medal Giri," which caused brows, official and otherwise, to curl in surprise icialdom said if was "muck-raking."

One writer said: "Other athletes have been in-tensed by her revelations of Olympic Village life which makes Peyton Place look like a hermitage."

He goes on: "There has never been a major condai shout Olympics Village sex life, but Dawn's experience in five such villages segrests this is surely accidental through the villagers relating to alk outside their intinate/international cond-

Is this the reason for the Australias Swimming ion's "conviction without trial" of its four girl letes? Is this the reason for its statement, "the cilic reasons for the expulsions will never be

Has Miss Fraser's revelations brought out into semi-open what goes on behind the Olympics cur-vithin the confines of its village when day and spetitions are done?

True or false, the hints could have a far-reaching ect on parents of young girl athletes who qualify Olympics competition.

The Australian Swimming Union's refusal to the "specific reasons" for the expulsions kints there may be some truth in the France story of night life a Olympic villages.

Miss Fraser who is the wife of bookmaker Gary Ware, has accused the Australian Swimming Union of "slandering her name." She is reported to be discus-sing legal action.

If do not know anything about the legal aspects of the case but it seems to me the Australian Union will have to come up with a far better reason for its cerulation actions than the need disobedience of an order not to partiake in Olympics opening ceremonies.

NEW YORK (AP)-Things | Could you fall in love with a commist might never know | a girl with a caviar smile?

fishy but in Vienna the ladies now are using cream of caviar to improve their complexions. . . The goo sells for \$12 a small not.

Incidentally, West German women now spend \$25,000,000 a year on beauty products an amount exceeded only by American women. . . The frauleins and haufraus pay more for face powder and

toothpaste and soap.

Turning to the other side of the world we find another one-time war foe enjoying a prosperous peace: Tokyo now has more investment clubs than New York City.

has more investment clubs than New York City.

If you worked your brain as hard as you do your heart there's no talling what you might accomplish. , your fixt sized heart pumps five

18,000,000 barrels in 70 years.
Do you own a slalopy?
The American used car industry regards any auto built before 1808 as a salopy.
Quotable notables: "Success is that old ABC — ability,"

Bominder: In case you like

fall on Saturday in the year 1800. (Maybe you'd better the a string on your finer right now so you won't forget.)
In dustry mothers Signiported at the Esquire Shoe-Care plant: "Patience us a good thing to exercise, a had

provide enough light's o you can find your way out of the forest to a store where you can boy, sew satteries.

"Quipe from our contemporaries: The - Catholic Digast fells of an eight-year-old who wrote an easily on Quakers: "Quakers are very meek quiet people who naver fight

What is the greatest word in any language?
Buddha thought it was equaminity, the great quality indicating evenness of mind, self-possession, and calm under stress or strain.

The heroic statue of Ahraham Lincoln at Washington was

### Strong Opposition Voiced prompte charges To Planning Board Plans For Ameliasburg Township

A by-sie in select for some plotted seeks to have approximate the many control of the control of

TXPICAL SUMMER COTTAGE — Dwellings such as these would eventu pass from the scene on the south shore of the Bay of Quinte in accords with regulations laid down in a zoning by-law calling for construction of pe

MAP of Ameliashing towinship that may be sound and regulated opposition to the plan has been veloci at two of a series of meeting to hear objections held by the township's Flanning Board, George Vincent, a township resident, points to the south shore of the Bay of Quinte, where restrictions would prevent building summer cottages. Will Taylor, another landowner, takes a careful look at the area.

We have discovered that many idle or surplus funds of companies and individuals earn little or no interest! individuals earn little or no interest!

Now you can put such funds to work at a high rate of interest in a Guaranty Trust Savings Deposit Receipt Account,

Here's how this new type of account works:

Funds may be withdrawn at any time on demand. Interest at 4½% is calculated on the minimum deily balance starting from day of deposit. However, funds must remain with us for 30 days to earn this EXAMPLE: If you deposited \$10,000

Tel.: 968-6711

on October 1st. it would have earned \$35.03 interest by November 1st. That is 31/365th's of \$412.50 (41/4%

333.03 https://dx.doi.org/10.250/4/3/x annual interest on \$10,000). Deposits are recorded in a special pass book. Withdrawals are by a Guaranty Trust official cheege (your pass book must be presented). The Savings Deposit Receipt, Account is a unique concept of Guaranty Trust. It gives you, or your company, the opportunity to your company, the opportunity to your company, the opportunity to earn 41/8% interest on idle or surplus funds—while letting them remain available on demand.

Further details are available from the manager of your Guaranty Trus

#### Wants French-Speaking Schools

Wants French-bpeaking Schools
The United Church of Canada has gone on
record as favoring a distinct and public system
of them as favoring a distinct and public system
of them as favoring as distinct and public system
of them as favoring to the control of the control
of them as favoring to the control
of them as favoring the control
of the co

eystem, with the expesion reing on one poses or religion rather than of language.

The easy solution would be to let the French-speaking achool be separate, or Catholic schools, after most French-speaking Camadians are of that religion. But what of the French-speaking possible who are not Catholic? Must they choose believes the control of the Catholic? Must they choose believes the control of the Catholic State of the French-speaking son-Catholics? (While public schools and French-speaking non-Catholics? (While public schools with the Catholics State of the French-speaking non-Catholics? (While public schools with the Catholics State of the French-speaking non-Catholics? (While public schools with the Catholics State of the French-speaking non-Catholics? (While public schools with the Catholics State of the French-speaking non-Catholics?) (While public schools with the Catholics State of the French-speaking non-Catholics?) (While public schools with the Catholics State of the French-speaking non-Catholics) (While public schools with the Catholics State of the French-speaking non-Catholics) (While public schools with the Catholics State of the French-speaking non-Catholics) (While public schools with the Catholics State of the French-speaking non-Catholics) (While public schools with the French-s

curriculum).

The United Church says that French lohoots need not be Roman Catholic separate schools, but in practice—in-Ontato they are ilkely to be, unless an arrangement to the contrary is made. Opportunists may see in the United Church proposal an unexpected chance to rid the profuse's ducational system of its existing divisions on religious lines. If French-speaking public achools were established wherever there are large chools were established wherever there are large. rench-speaking minorities, and if the public shoots eliminated religious education from the curriculum, as an increasing number of people including some Protestant ministers are now ad-vocating, would the Catholics agree to forego

returning sins Friedman inneres in the low as investing, sensitive that the Catholics agree to forego the transfer of the control of the catholic structure. The initial answer, we may be sure, will be in reconding negative. Still, it would be interesting to see what influence French-speaking either and the catholic structure. There would be moned for uniformity throughout the province, with its widely varying conditions. Each district might be permitted to choose whether its schools would be divided into two classes according to religion or according to language. If the division were according to religion or according to language, both free separate schools could make a choice. If he the division were according to language, both green and the could be public and should not attempt to teach religion.

#### Get Together, Folks

Abram Wiebe, president of the Ontario Association of Real Estate Boards, says that \$00,000 immigrants are needed to meet the needs of the Ontario labor market over the next five

Mr. Wiebe says "danger signals of a labor stage later in 1965 are flying." If Mr. Wiebe is right, this is good news.

The Wise Studies of the Studies of Studies of the Studies of Stud

aware of the potential value of such immigrants to Canada's concounty. We just cannot believe our need for immigrants is so urgent that Canada would be justified in providing them with free transportation, as Mr. Witche advocates. If public monties are to be spent moving workers justic interest are to be spent moving workers justic interest areas, then we would favor its example of the providence of the p

Give us a healthy world—in the full sense—if communism will finally disappear from the tin in every sense—Sergent Shives.

#### To Your Good Health Infectious Hepatitis Is Not Caused by Alcohol

Dear Dr. Holmer: My lumband facts because severs had been recently filled at the age of 25 discharging their pollution in the less of the several pollution in the less of the less of their pollution in the less of thinks year heavily to included hepatitis virus. Cross-country runs call for CHEVROLET

J. Keple writes: "We have used Chevrolet Trucks for 25 years and during this time we have never had any real trouble with them. Whether on local delivery or long distance haulage.

Chevrolets stand up well. Power output from the six-cylinder or eight-cylinder engines is excellent. The 409 V8 is particularly good on our cross-country runs.

"We watch our operating costs very closely and find Chevrolet Trucks give us a most favourable economical figure with the lowest downtime per unit."

Every operation can profit from Chevrolet Workpower -including yours! See your Chevrolet Truck Dealer today.

#### Why Not Change Taxation Year?

Viril New Change Landillon real:

One of the setum columns which we publish
in the hope that it may be of assistance to our
readers is "Income The Explainto" by C. A.
Miller, redred supervising assessor of the Fedestal income has department.

This week Mr. Miller explaints' that if
department were not of seto in
the condition part, the tampeyer has no claimwhite the control of the control of the conpart of the control of the control
them up to the time of pributation."

This was cause a lot of controls and a lot.

This may cause a lot of confusion and a lot of work in the income tax department. Mr. Mr. white writes "many taxpayers will take a prorate exemption for the time they supported the child, but there is no provision in the income tax regulations which permits this procedure." He also explained that the taxpayer may add the amount by which the child's income exceeds \$360 to his tax, not to his income, and then claim the usual exemption. This, too, may ult in many errors.

result in many errors.

Some may suggest pro-rata examplions be allowed. That, Borugh, would create another condusting situation. One targayer might be able to claim three-quarters of the usual exemption, because his child worked only three months in the taxation year, and the child'e income for that time months night be higher than that of another taxpayer's child who worked the full year, and for whom no exemption whatever could be claimed.

whalver could be calimed.

The taxulous year now conforms to fine, calendar year, but the Federal Government's fides, year is from April 1 to March 31. Why not change both the taxation year and the fixed year to Sept. 1 to Aug. 31? This would reflere most parents of the burden of supporting children without being able to claim any exemption, since most children start work after finishing school. If any children district work before selected in work before selected. school. If any children started to work before Sept. 1 it is unlikely they would earn over the \$950 limit before that date. The federal budget so generally brought down in the spring. With the taxation year starting in September, changes in the budget could be put into force with reasonable speed, without there being one rate of taxation for part of the year and a different ratio for the remainder. (In practice the rates rate for the remainder. (In practice the rates are generally averaged out for the full year, but making tax changes conform as much as possible to the fiscal and taxation years would certainly be nester, if nothing else.)

#### King No Hero in Harlem

Most Canadians, and a great many white residents of the United States, have a great respect for Dr. Martin Luther King, winner of the Nobel Prize and advocate of peaceful methods in the Negroes' struggle to obtain full civil rights

Most of those who admire King regarded
Malcolm X, assassinated former Black Muslim,
as a dangerous crack-pot. \( \)
A Negro writer says that Malcolm X was

the most influential man in Harlem, New York's teeming Negro suburb and the intelectual capital of Negro America. Nobody in Harlem, he says, to King.

This may surprise us—but should it? King minister, of the fundamentalist school which has such a great appeal to Negroes in the rural

Could we really expect such a man to have smach impact in any urban community, let alone a community like Harlem where all the best and the worst of the race is crowded together, an island in the ocean of the greatest city in the white man's world?

white man's world?

The non-violence which King preaches may make excellent sense to the Southern Negro, oppressed by a militant with majority and shackled, too, by a sincere bellef in the creed of brotherhood and love which the white man's religion has taught him, but which the white man's religion has taught him, but which the white man does not slaways practice.

To Bartem's poor, living at constant odds with the white man's law religion to the property of the shade when the world was not a single property in the labellant in the white man's new religions, it religiously.

the white man's law, or to Harism's intellectuals, who consider themselves to be above the average intelligence of the white masses, non-violence

mtelligence of the white masses, non-volence may seem like nothing more impressive than another name for cowardice. Not every intellectual has the stature of a Gandhi, whom even Winston Church misjudged as a trouble maker in a loin cloth.

stories make men wise; poets, witty; the natics, subtile; natural philosophy, deep; grave; logic and rhetoric, shie to contend. in in Of Studies.

"Judy, you've been messing around with the Pension

#### To Your Good Health Active Movements of Baby Noticed About the 5th Month

By Geo. H. Carver Sports Editor

you taugle with a Hull, everybody notices

To say that M'tieu Joan Neel Picard, of the Montreal Canadiese had again heard of Gordin Howe is tantamenat to remarking Xa-Xa Gabon had never heard of husbands and diamonds.

Wifen Jean Neel is the Intest bire-line heavy-weight to John the Rishs tank corps. He in 25 years of age, weight 215 pounds and is murcled after the style of Strangier Lewis. He received his pre-kaptims in the ranks of the Central Pro League Omaha ciub.

In a recent Habs-Wings tangle Langlois of Detroit brawling with the Habs John Ferguson — and getting newhat the worst of it. Howe started to go to the rescue

The Fontinato caper was the last event in which ster Howe engaged in a stand-up exchange of fistle assantries with a forman.

pleasantires with a focusas.

If will be recalled that when the referre budges sounded the cense-flow on that enhancing, Festimate was 'lestelly bearing down the brief of his own such. A "Tree purch had changed the lest"in of his retained from how how his yest to between his cense politicity in the 'opposite directions.

In the opening enhanced Wilder Picard exercising Lesson Number One in the manual "Rickery Pinyers" Bulbs are all Leis, "juiled Gerellia exercise over his back."

Lesson Nam' er Two says "when the opponent is will-outfiled by sweater as in Lesson One — apply headlock." He clamped a neck-hald on Gordie that would make Whipper Watson look like a nevice.

Gordle was in a had way. Roakies, not even 215-pound behemeths headlock a Howe — and get away with it. He broke away and brought up a hay-maker from left field. Il missed by a country mile and Gordie fell flat on his face.

They joined battle again and were finally separated a lineaman. They stood up, squired off in bare-uckle stance. Howe glared at the young upstart in true an L. Sullivan manner.

The huge rookle decided the press-hex had got sufficient eye-fillings, also that discretion was the better part of valor. He showed no further interest in fisticuting, Neither did Howe.

"Shocks" remarked the Red Wings Sid Abel "all that straining and holding tired them out. What a whale of a flight it would have been if they had gone at it before they got tired."

Howe shrugged off the fight in his usual quiet manner. His face was scratched and he had an ab-ration on the jaw. Asked if he remembered his last fight, he grinned and said "Sure, a week ago with my wife."

Picard was rushed hato the barred dressing room of the Habs. Sports writers were mashle to reach him for a blow-by-blow version of the best.

The hitherto unknown Canadiena rockie came out of Montreal amateur ranks to turn pee a year ago with the Omaha chub. In 55 games with that team he collected 147 minutes in penalties, not as goed as Howie Young but not too had for a beginner.

. But he made more headlines and sports column gossip in a few minutes of ice action than Milly Harris of the Maple Leafa did in ten years.

Service as the pre-week of the pre-week of months (6.75). For carrier fine to Canada mixed over year; 6 months (6.75). For mall to ULAA, \$21.05 per year; 8 months (6.75). The pre-present control on second class mail by the PAD, Duple, Ottows, and for paramet for possible in calls.

The Chinelian Fram: Mumber of the Abdill Birraru of Circulation.

### His Talents Wasted

If Lucien Rivard is, in fact, a narcotles smuggler, he ought to be jailed for 99 years-for a criminal waste of his natural talents.

for a criminal waste of he natural talents.

Hight now, he has us he quandary. All the
procepts-of good citizenship demand that we
pray for his speedy capture, that he be brought
to fusites. Ferry instinct of common sense tells
me that the best 'thigg which could happen
would be that he should vasileh into the night
and there find a position tallored be hig enths—
as a script writer in Edulywood, as president of

His indignant denial that he took \$25 from ard—"I'd much rather give \$25 to a guard se these poor devils live on starvation "—coupled with the fact that he matched timent with action by giving Jacques Bour-sis, whose car he "borrowed," \$2 as taxi fare home, and then telephoned Bourgeois to Inform him where the car had been left—provides us with an almost unbellevable picture.

Added to this is his concern that no gu should be thought guilty of assisting him in his escape—and his naivete in thinking that a letter testifying to this would be accepted as conclusive proof of the guards' innocence Rivard may be a very wicked man-

may be, for, remember, he has not yet been convicted of anything—but one thing is made plath. It is now easy to understand why his wife loves him, which she evidently does. Black-hearted sinner, or misjudged saint

the man's a character.

Who said Canadians were a dull people?

### Expert to the Rescue

We all like to take a poke at the experts. est is human nature. So by are nice to have around.

That is human nature. Sometimes, though, they are nice to have around.

J. K. Crossiey is an expert, a curriculum commitmant for the Charlaro Department of Ethicasion. Fortunately he was around when Corego Gray, charlman of publicity for the Orniaro Profession of Rome and School Associations, used the teaching of ser sciucation in schools, to "combat the rising incidence of veneral disease among teenagers.

B. S. Mr. Crossley's contention that since "received on formality," see education and processing agrees on morthly," see education according to the content of the co

### Old Cartoons Reprinted

At least one Ontario daily newspaper is reprinting the cartoons which made Bill Maudlin

Mandiin, in case you have forgotten, made his name by his drawings for "Stars and Stripes" the U.S. Army's newspaper during the Second

Great War.

Many of these cartoons still have plenty of punch, a surprising fact which attests to Mandhira genius. What worries us though, is why the paper using them should have chosen to respondent them at this time. Surely, not to prepare us for things to come?

It has to be admitted that we English have-sex on the brain, which is a very unsatisfactory-place to have it.—Malcolm Muggeridge.

The love of humanity is the whole of mor-ality. This is Goodness, this is Humanism, this is the Social Conscience...J. William Lloyd.

My theme is me, I say what I feel. I feel rustration, hunger for love, hunger for food-Indian post Shalleshwar Ghose.

"Sir, I beg permission to report that the red maple

### Letter to the Editor

Ontario Intelligencer

I refer to your nows item of
March 2nd. "Ameliasburg Zoning By-law Under Fire by Ratepayers." As chairman of the
Ameliasburg Plenning Board I
feel it is my duty to correct
some of the impressions which
which he actual to the medium some of the impressions which might be gained by the wording of this, report of the senting.

Additionally, I would like to outline for your readers in this township the purpose of the "Official Plan", and Zoning By-law. This is not a criticism of your reporter who must have found it difficult to keep up with the sometimes bested de-bate and strong feelings which were in evidence.

### Ameliasburg Board Head Explains Plan

pected to remain as such throughout the life of the plan. (2) With growth continuing at its present rate, a popula-tion of 6500 persons is pre-dicted by 1980, vs 3500 at pre-

dicted by 1800, 'n 1800 at pre-197. The lade of the predict-of Drowth and, therefore, the Oracle had, therefore, the Oracle had, therefore, the built of the resulting residen-tial development is expected (a) in order to control that of the control of the control oracle had been been control to concentrie rather the secontrol to concentrie rather than seat-tion of the control of the OS This truth as seat-our thought the secontrol of the Committee of the control of the Committee of the control of the co

# PORT

By Geo. H. Carver Sports Editor

The ancient Roman gladiators took internal wine the before going out to simulater the Christians. The ole of Olympics blessed the vino-cups of Olympics beroes dore and after the games.

It is stated that many British coaches in beer in their training diets. Orderd and Cambo crews sang the English version of Yale's "Wid peets" in the local Yemple Bur after "The Ence" Versit accommandation.

There are stories innumerable of professional all players "breaking the rules" and hitting the spots in defiance of training orders.

The famous Bo Bellusky made the headlines with best high jinks in night clubs and hebselbling with sea and television beauties over midnight bettles subbly.

The immerial Babe Built was not averse to washing down a deern hot dogs with a galles of suds prior to a game. On one post-game celebrative examin he leaf \$23,000 in each and when the leas was discovered belched "So what, it's only meney".

Not a few celebrities have expitalized on the lietes love of the night-spots — and while goes th them. Jack Dempacy owns one of the most popul-baryestaurants in New York city.

Another gathering place for top names in the ord of sport in Gotham is Toot Shork. Toots is a mere heavy-eight wrestling champion. Frede distinguese, ex-New York Gizats kurler, owns the agest her in Brooklyn on a corner near the site of is late lamented Ebbet's Field.

The frames Gas House Gray of St. Louis and the John McGruw Glants were two of the weets half-nining haseful closis in history. The "Gas House" erw took Philadelphia by sterm during a collective space taking in all the holeis in a rip-rearing junkot of the city's night spots.

And the recent expulsion of Australia's Dawn France and three other Olympic swimmers brings to mind the famous incident. of Eleanor Holm, former queen of North American backstroke swimmers.

Elexnor, en route to the Olympics absard an occas; liner sitended a champagne party one night. The event finally found its way to the ears of Away "Holler-than-thou" Brundage, Olympics hose and the man who put the "sham" in amateur.

in Rerlin.

And white he stratistic around backed in the light of his solf-made publicity, the presences of the Reim saterpries were no tickled with the prote notestry caused by the "hubbly acceptable" they upped the contract to \$10,000.

Later Miss Holm married Billy Rose, the New York ulti-millionaire, whose name was a byword in Gotham's estrical circles.

Conservation of Heirlooms

By LENNY WILLIAMSON .

Mention the word "conservation" and you think of # fires and soil erosion. But say "conservation" to a cum curator and he thinks of dusting and polishing, sing and cleaning and storing.

The staff of the Hattings County Museum is asked frequently for advise on the care of formishings, objects of art, antiques and documents, the staff of the staff

Their series, designed to make every homemaker as well-informed as a museum econservator, will explain the reason "why" as well as tell you "how to."

Readers with questions are asked to write to the Hastings County Museum, 240 Church St., Belleville, or telephone the Curator at WO 2-3731.

The first acticle, March 13, will deal with Silver — why it tansishes and how the world's famous silver col-lections are kept admine.

### Education Week

This is Canadian Education Week

Almost everyboly has some interest in education. Almost everybody believes he knows a lot about it. It is doubtful whether more than a handful know as much as they think they do. This is true of everybody, including editorial ers and teachers.

Educating a person is like pouring a liquid from one container into another. The speed with which this can be accomplished depends on two factors, the maximum rate at which the new container can receive the liquid and the maximum rate at which the old container can dispense it. Since, in education, the receiving container is always human and the dispensing container frequently is, we are faced with a problem involving two variables likely to be influenced by a multitude of factors. . .

Sometimes we hear talk about the science of education and no reasonable person would deny that education can benefit from the appli-

deny that someation can benerit from the appar-ciation of scientific principles.

But human behavior still plays an important, perhaps a predominant, role.

To illustrate, we might refer to a series of articles the Associated Press distributed recent in an effort to explain "the new math."

in an effort to explain "the new math."
The articles were written by a teacher,
Katle Mueller of the staff of the Junior High
School at Redlands, California.
The first article dealt with the commutative

School at Rediands, California.

The first article dealt with the commutative principle for addition (GPA) and the associative principle for addition (GPA). After the initial abock, we learn that CPA simply means that 3 plus 4 is the same as 4 plus 3 — "If you add any few numbers to add, it is a simple of the same as 4 plus 3 — "APA, in effect, and it is a simple of the same as 4 plus 3 — "APA, in effect, and it is a simple of the same as 4 plus 3 — "APA, in effect, and the same as 4 plus 3 — "APA, in effect, and the same as 4 plus 3 — "APA, in effect, and the same as 1 plus 4 plus 1 plus 1

What "the new math? amounts to is that pupils are now being itsupit to take short-cuts which in the old days the brighter students had to discover for themselves, or which were revealed in addies by tenchers after formal addition and multiplication instruction was ended. No stud-multiplication instruction was ended. No stud-multiplication instruction was ended. No stud-pidly and the students of the students of the published with the students of the students of the published with the students of the students of the bright have to keep this secret from the inschipt.

This whole process, it seems to us, throws two interesting lights on today's teachers, compared with those who thought that the prime duty of education was to instill a knowledge of the three PA. Today's beacher encourages the menial nimbierness which seeks out easy ways of stackating the problem. The fides that there of stackating the problem of the formula bas been discarded. This grown as of formula has been discarded. This grown is the problem of the problem. The problem of the Is any within in doing things by a set formula has been discarded. This encourages a rapport between the teacher and bright student, such as might come once or twice in a student's school-days in the old days. This attitude has carried over to, or perhaps has been festered by, rela-tions between student and teacher outside the cleamrout. This has ments once lessening in the control the beacher carroles, some relaxation of designin. The net result, though, seems to

us to be encouraging.
On the other hand, today's tee on me other hand, today's teachers, or some of them, do like to talk about CPA, APA, P.M. I and DPMA and their equivalents, if not to students (oh, surely not, not at the stage of adding 3 plus 4), if not even to parents, then amongst themselves.

amongs themselves.

And that, it seems to us, is a pity. It is just another hazard in the process of communication, of fact and besides, which is what education is all about.

The question should not be why criminals behave as they do but why most people do not behave like criminals.—H. J. Eysenck, professor of psychology, University of London.

### Letter to the Editor

### Urges Communities Look After Own

and workshops.

Just as provincial government grants were quickly fortshooming in steadly increasing
amounts, once the first schools
were exishilated, we are convinced that the value of such
community residences will be
specify realized by the govcriment and much more adecriment and much more adecriment and than are now avallable as forthcoming.

By Geo. H. Carver Sports Editor

Den't look now, but there are judications "The art of Kings" is being peaked into the place opet by headers of the harmon-racing set.

And robbing its hands glosfully, the Canadian The Association says it is going to hang on to its me of "Conadian Retting Monageh."

The Sully Sot, hit a record requeing total of 178,006,644 last year out-licketing the theregistered the society which windowed SISTATIANS.

Higher botting is invertibly in direct proportion to improve class or horse. With this in what indeed a heromen sport \$805,076 for 264 individual revene at U.S. sections has year. The horses purchased were atther homeoin-insinit ventilage due to begin racing fine year.

Quebec and Ontario led the purchasing race.

Both provinces open Canada's trotting 1966 masses of
similar-birof racing files month. Toronto's Grosswood begins March 13 with Heatron's Sine Bonnote debutting March 36.

Quobec owners had year hought 111 hereos, spend-ing 1845,388. Culture hereosane bought 191 hereos at an average paire of \$3.214.

Illiflutes individual priced yearflag bought was the \$3.0400 tilly stalling Been. It was the highest price over paid anywhere in the world for a yearting standard level fly at public sensition. The new owners are Adricane and Gerard Miress of Sie. Any-moths, P.Q.

They also bought Proud Vic (\$29,000), and Biossom ne (\$24,000). Brampton's Armstrong Brothers got nile Hanover for \$23,000.

### BELLEVILLE BACKWAY

Closer at home I dragged the Quinte Driving and Riding Club's 1985 president, Gerald Vance, out of a sick hed to learn that the club will seek incorporation this year. The schoos of the city fire-seters will trek to Ottawa in the near future with this in mind.

He was highly optimistic over the success po-tential of the clash's recing program. "He going to take a lot of hard work and PII need all the co-operation. I can get."

The former fire chief may have his critics but if boys in the nexts of the mighty play fel-the-leader, there's going to be a believe lot of work a this spring and summer.

He thinks a well-lighted track would be a tree s asset to the club and its racing activities. "We have plans under way for a new lighting ren," he said. "This will meen fifty new lighting stards which will illuminate the track in its co-ty. It is not definite—but we are working on

hile the Vances, Gerald and Al, will never be as the Belleville E. P. Taylor's of harness racing, re building a nest if not gaudy stable of their

At the mement they have five herous in stable at the Fair Grounds' motel for outlines. These is, clude their nevers addition, "Eff Son," a stryear-old; Sholl Douglas, five: Den Comet, four: a hower matron "Ruth," who reconsity, hery a knottome son, and Foy's Print, a two-year-old.

Also in stable at the Fair Grounds are two horses of the Newton brothers; Irvin Ness has four going; Larry Zebedee is training another, as are Messra Dock-stater and Kellett.

Aside to Al and Gloria Vance, and Harry Ecap: If you will let me have the secret of how you ob-tained those nice "hundles" that night at Gardan City with "Bir's Som" mining the lost, FR consider a commission deal. I need shirts,

Kristand Laks High School

Kristand Laks Think of all the economy cars that can give you up to 45 miles to the gallon.

Now consider this:

Doesn't it make sense to choose one that gives you a full 50 hp too?

# That's the Vauxhall Viva from General Motors

Offering a high power-to-weight ratio for brisk all 'round performance.

It's not hard to find a small car that gives you good gas economy. But it's mighty hard to find one that successfully combines gas economy with really satisfying performance. Hard, but not impossible. Because General Motors has designed the 1965 Yauxhall I'yas with an unusually high power-to-weight ratio. Its 50 hp engine allows you to drive with less than average gear shifting, lets you switch ame neathy when passing, or merge easily into fast-moving highway traffic. With allthig goes roomy comfort for four and supplies that a built in the ability to park easily in a 16 ft. space. Its roadability

and big-car ride are things you can best prove to yourself by test-driving a 1965 Viva. Wouldn't it make sense to do just that? Soon?

3

D

ers and Larry Irvidonomie got an assili.

In an exhibition, Bruing 42 with lay Comitine Societies and the lay Comitine Societies and State Committee Societies and Brues Lattimer had Buists. Stan Muldoon and Jim Potis were the Wing scores, Dick Foort having an assist.

Maple Leafs now meet Bruins for the "A" championally while Rangers and Barons meet for the "B" crown.

Jeff Delton scored for Bruins,
D. Lormer getting an assist.
Barons and Teepeea, tied 4-4.
D. Caul got two Teepee goals with D. Lynch and Wilson also scoring. Kerr, M. Goegan and G. Moore got assists. R. Foster fired three Barons goals, with T. Cass having a goal and an assist, T. Mason an assist.

an assist, T. Mason an array.
Generals topped the Wings
3-1 in an exhibition, D. Leahy
scored two, D. Baykson one for
the winners. Jones, Flynn and
Cranley had helpers, J. Foley from G. Doyle was the
Wing scoring play.

Bert Lovelsce.
Rangera topped the Hawks
52, sparked by David Cass with
four goals. Timmy Foster also
scored while assists went to
Neil Goyer, Brian Woodley and
Gary Medilivary. Harold Wilkinson acored both Hawk markers and Larry Prudhomme got
an assist.

### Junior 'A' Finishes Sked

Bottles, Cans

Shower Given heir final games of the se Cricket Umpire

Sunday.

The last-place Hamilton Red
Wings overcame a three-goal
first-period deficit to edge the
second-place Toronto Marihoro
6-5 and the seventh-place Kit KINGSTON, Jamaica (Rec-ers)—Police had to escort umpire Douglas Sang Rue of the field through a shower of bottles and beer cans Sat-urday after a flery days' play in the first cricket test between the West Indies and Australia.

6-5 and the seventi-place Kit-chemer Rangers edged fourth-place Onhawa Generals 6-5. In other Sunday games, Niag-ara Falls Flyers defaata54, Montreal Junjoe Canadiga-ctic Catharines Black Hawks 5-3. Oshawa edged St. Catharines 7-4, and Turonto deteated Montreal 4-1 Saturday.

Including hald below. J. F., and the second of the second

By Geo. H. Carver Sports Editor

PICTON — One of Prince Edward county's most rerestile young athletes won't be wearing the colors of the native heath this summer.

I talked with their father in his Main Street butcher shop over the weekend and he told me Marvin and Carl had joined the exodus of county young men to faraway places where the employment fields are much greener.

Carl is associated with General Motors in Osh-twa. Marvin, Alf Pike and other athletes are at present located in Brockville

The younger Stacey who once was tabbed as a ton Bruins hockey prospect by Harold "Baldy" ton, may line up with the Oshawa Tony's or a bourg club, his father said,

There was a touch of pride in the elder Stacey's e when he told me "Dutch" Ainsworth put the upster in to plich and he whiffed the first nine to face him "with a curve that went around I base before it headed for the plate."

But not all the athletic honor and glory goes to the inger Stacey. Time was when Keith and Marvin re mainstays in Picton and Bloomfield athletics. And at one time and another they wore Belleville forms in both softball and bockey.

But all is not lost as far as Bloomfield and soft-ball is concerned. Our man Garry has it that the 1964 Oniario "B" champions will likely be repre-sented when the power-that-be of the Belleville District Softball League calls the roster.

Master Perdham distinguished himself in the trie High School Wrestling Championahip held in too, Oat., ever the weekend by winning the 123 dis championship and becoming the first city rat to win an all-Ontario title.

Incidentally, Moira gave a highly creditable team formance, finishing sixth in the over-all finish and ing out their "arch-enemies" from Campbellford High ool, current Quinte COSSA champions, by a single

# Asking Too Much

Hon. Bona Amenault, Quebec's provincial secretary, says there is only one condition under which French-speaking Canadians can be proud of being Canadians and can remain Canadians. This is that they must be able to feel at ne in all provinces within 25 years

home in all provinces when an expension of not lines when they should not demand that they be made to feel at home anywhere in Canada right

That's the way we feel in Quebec, right at home, with the assurance that nowhere but in Canada could we find French-speaking people who would accept us as having an equal right with them to enjoy the beauties the country has

But hold! Mr. Arsenault says: "We are But hold mr. Arsenault says. We also taking large steps toward a bilingual Canada where, in 25 years, our sons will really feel at

That seems to mean that a French-speaking Canadian must be able to speak French and be understood in order to feel at home.

That condition will not prevail in Canada in 25 years, probably not in a hundred and perhaps

never.

The first report of the royal commission on bilingualism and biculturalism makes that plain.

Moreover, most experts doubt that universal bilingualism is really important.

bilingualism is really important.
The French-posting Canadian ought to be
The Strench-posting Canadian ought to be
able to find somebody in any Canadian communtily of any size who can speak his language with
reasonable fluency, so that he can receive all
necessary help it he gets in trouble of any kind,
reasonable fluency, to that etern, Mr. Arsenauti is
stiffly, "ent. to that extent, Mr. Arsenauti and
the strength of the st

Meanwhile, the French-speaking Canadian ting Ontario might find that English-speak reg Canadiana are able to match in courtery one present control of the present court of the p ing Canadians are able to match in courtesy one French-Canadian milkman in the town of Alma-

Are You "Morally Derelici?"

Dr. Nerman Defarms of Toronto says that parties with smoke cigarities in front of their but smoke cigarities in front of their hill and the smoke cigarities in front of their hill and the smoke of the smoke of

simply because these parents set the chimera a bad example seems to us as unjust as the Old Testament judgment whereby the sins of the fathers are visited on the children to the third

fathers are visited on and fourth generation. No parent should encourage a child to No parent should encourage a child to smoke, but a smoking parent who warns against the habit and confesses that he is "nooked" and cannot easily quit seems to us to be as likely as a non-smoker to persuade his children to refrain from smoking

And certainly he deserves more respect than a parent who does not smoke "before the children" but is discovered (inevitably) taking surrepititious puffs in the bathroom, the basement

or the back of the garden.

There are worse examples one can set one's children than indulging in sins of the flesh and one of them is a hypocritical concealment of one's foibles and weaknesses, posing as a good example without really providing it.

Every great advance in natural knowledge involved the absolute rejection of authority. has involved the absolute Huxley in Lay Sermons.

\*\*ENGAGEMENT NOTES that the best of a transport of the first state of the state of the

Now that the storm is over and the dust, has settled I am happy to know that there IS a Welcome Wagon in Belleville. Not only that, it has been in existence for 20 years. Not only that, it is sponsored by some 30 merchanis and firms in the city.

Mrs. L. M. Hagerman, 186½ Front Street the Welcome Wagon hostess, and her sistant hostesses are Mrs. Jane Dean, 100 bett Avenue, and Mrs. Dorothy Steadman, Edgehill Road.

52 Edgehill Road.

In conversation with Mrs. Hagerman, she said that "the Welcome Wagon International hostesses with their baskets of greetings and gifte acteed the hand of friendship, neighbor-licess and service to newconers, and has become the strongest, most effective human and public relations influence in the community."

That the hostesses are doing a good took to

while relations influence in the community. That the hotesses we doing a pool in mining or day, they see worm with feated to by the fact that many of those who had from the Western Wagne.

We have of course, that Sell-rillie is a requestive (i.e. and might have known as the procession of the course of the cou

FBONT ST. WO 2-2156

Today North Pront St. property is bing officer at \$300, to \$400 per frontage foot; The Registry Office record shows that a property is being officer at \$300, to \$400 per frontage foot. The Registry Office record shows that a property with extra depth on this wital artery recently sold for \$445 per frontage foot. This appreciation is accelerating a secure through that merchanic satisficating a major northward alopping shift (where there is many times the property space of dwordown) will have been con or never as prices on the Golden Mile are quickly passing beyond the scope of the individual into the reals of the corporation.

If Golden Mile prices are already too rich for your blood but you want to locate your business; where business is being done — you can buy the Rothwell-Perrin property on No. 14 north of 401 for only \$87.50 per frontage foot including a modern split level convertible to an office.

If the same appreciation takes place this year as last this property will be in the \$125 or more range by this time next year. Where else can you realise such a sharp capital gain with so little risk? The split level can be used as a rental revenue producer while you hold for a capital gain. Lets talk it over.

If you prefet he east side of the city, we are offering land on Dundas E from 380 to 3115 per-frontage foot. Owners of 200 new homes slated for the Haig Road will find it convenient to buy goods and services on these properties on the south side of the No. 2 throughway on their way home. Unlike the gentleman of the first paragraph you can beat this appreciation by buying now. What are you waiting for?

# This is the first year for the Delta 88. Man, does it set a precedent!

This is the start of something grand. New name. New series. New everso-fancy way of driving an Olds. In fact, this brand-new Delta 88 has so much more to offer you, it sets a new precedent in luxury for its price

Like, for instance, more style. The Delta 88 has rich chrome mouldings on the body and window frames. A very distinctive rear deck panel. More interior luxury, more comfort. Both front and rear seats are foampadded and the upholstery is of the kind you usually find only in the Nighty-Eight series. You'll notice nice touches, too, like carpeted lower door panels, deluxe armrests, and an instrument panel complete with courtesy and map lamps.

A CENERAL MOTORS VALUE

More power. You can go up from the standard 310-horsepo Rocket V8 to a sizzling 370 if you wish. More satisfaction. You ca really set a price on satisfaction, but there's no doubt it's bere. The Delta 88 will make you purr like a pussycat, or like a Delta.

Why not see it, price it, drive it soon? We kind of feel It'll set

By Geo. H. Carver Sports Editor

Don't look new—but Stan Militia has a little black ook. And it does not contain the information snally associated with little black hooks carried by no males of the species.

"I dea't need anybody to tell me how good or how had I'm playing," he says. "I've got it here in the book. There's another gason, too. Next fall when I sign my contract I've got some good arga-ments right here in black and while."

Mikita is one of the best players in the Na-tional Hockey League in this book, albeit he lacks the caler of a Bobby Hull or Rocket Richard. They are the type of player that fills rinks.

Affirits is reported to be the truculent type. Toronto haple Leaf coach Punch Imlach once said about him The guy can play hockey, but he's got a mean dis-cention."

He is in direct contrast to Bobby Hull. The Puint Anne blonde is big, powerful and friendly. Mi-hits is small, dark, moody and while not tostally satt-tocial he is definitely not preparlous. Both are citches-conacious and spend a lot of money on their habordashery.

It is no secret that a number of the Black Hawks not like Rudy Pilous when he was coaching the club Mikita is said to be one of them.

The story goes that Pilous was standing in a Montreal hotel lobby when Mikita went by and ignored him. "If you want to know what's wrong with our clsh," remarked Pilous, "take a look at him. Twendy-one years old and wearing a pair of \$30 milligator sheer."

"It was felt in some quarters," remarks Dink (Month-d Gazette) Carroll, "that it was a case of too-much-too-m for Mikita. But he has matured since getting rried and sequiring responsibilities."

Milkis is well on his way to his accord National Milkis is well on his way to his accord National League sowing champlenship in a row. He wen it last year with 30 goals and 50 ancies for a total of 80 points. Bobby Hull had 43 goals and 43 sensitional first half drive and his injuries-caused simple is now hostory.

The Circhborn size says: "The scoring champions after means a lot to me. But if I'm to lose its some body I prefer it's someone on our club. I want to win it if I can and Robby and I have no agreed to the lose of the lose

By winning the individual scoring title Stan Militia would pick up \$1,500 in peris money. But if the Hawks fall to finish in the top slot because of Huil's injuries, he would lose the winning team's players' sward

And with the Canadiens, Red Wings and Leafs hot and running it looks from here as if the Rawks will have their chores cut out to finish on the top rung. That leot looks awful good.

Mikita has an enswer when someone asks him bout his number of minutes spent in the penalty her, When a guy backs off in this league, he's marked," he mys. "I'm not saying there are players who try to rack me up the way they used to. I wish they would. That's how they get out of position."

Mikita came out of Crechoslovakia when he was it years old with an aunt). He quickly adapted to key and rapidly revealed his professional potential.

Right now he is abouting for records of a sort. High now he is abouting for records of a sort. He has broken the mark for most penalties for the tild the state of the sort of the sort of the of left the 1st animates. He set the former mark of left the 1st animates have the state of state of the less me cored. He and Bill Hay shared the former mark of \$2.

BALLET GAINS RECOGNITION — Accompanist Sylvia Hunter of the Royal Winnipeg Ballet discusses a score with dancers mella Mackinnon and Leo Guerard. The 23 dancers of the ballet made an impres Prokoutor of the eastern United States last year and visit Britain this year. The Ballet was founded 25 years ago and has survived such misfortunes as a fire in 1953 which destroyed all their sets and equipment.

# Planning for Centennial

A reminder that Canada's centennial year is only 22 months away has come from Ontario's Minister of Tourism and Information, Hon. James

The minister was addressing, non-americal.

The minister was addressing a repical contennial planning conference in Brochritis. Other conference is necededucted for Owneal, L'Original, Pembroks, Ottave and Kingston.

This city may not be able to claim the historical associations of centree like Kingston and Brockrilles. Neighbeless, he liber west with be a challenge to ul'all. It will afford an opportunity of the community, and in the planning obbottout community, and the planning obbottout community and the planning obbottout or community and the planning obbottout or community and the planning of the planning of

ploneer times.

Municipal, business, women's and service club
eaders have been invited to attend the various
lianning conferences. Belleville's preparations
ught to reflect the same divergence in commun-

tly interests. Manwhite, interest in what has come to be known as Canadiana is unprecedented. The new flag, the growing sense of nationhood, the coming centennial itself, are all symbolic of a quickening of the national pulse, a new pride in

being Canadian. Visit the Canadians gallery in Toronto, for example, and come away with a fresh appreciation of the soundry's traditions. - See the early Canadian glass (from the old Mallorytown works near Brockvilley, driver and fruntigne. - See the dark where General Wolfe attended its administrative work in the field, and the Conseilus Markey of Canadian outdoors in the Canadian outdoors in

in planer times.

In planer times, a face of eculpture of Captain Planer times. See, box, a face of eculpture of Captain James Cock and learn with sortio surprise that James Cock and learn with sortio surprise that James Cock and learn with sortion of the planer of the control of the cock, as well as the coasts of the formation of the cock, as well as the coasts of the cock, as well as the coasts of the cock and Labrador.

These are all facets of Canada's history which with a relived to the country. We should make sure our eclebrations to years from now are worthy of the magnitude of the occasion.

# The M-C Freeway

HIE MY-C ITECHNAY
New signs will go up soon on the Macdonald-Cartier Freeway—401 to you and a few hundred thousand other monointeis in Charle.

At principal inferchange points the signs will be fire feet by 12 feet and will be at the inscription "The Macdonald-Cartier Freeway"
Between these signs the highway will be marked with white-on-bitus signs measuring 18 her 29 inches.

Obviously, if these signs are to be legible to motorists speeding past at sixty, the message has to be something briefer than "Macdonald-Carties Descriptor".

has to be seemed.

Carrier Freeening."

Therefore, the hame has been shortened to "Mc-7 Master of Ceremonles? My Considered Woor Cost?

Do not worry, Motorists will not have to figure out what the letters stand for.

The old 401 signs will remain in place, between the constraint of the constraint of

The world Moral Rearmament Movement will henceforth have collective leadership. This was announced Thursday at Lavenham, England, where the funeral of the former leader of MRA, Peter Howard, was held.

Peter Howard, was held.

Said the secretary of the movement, Morris
Martin: "Among us today are men from all parts
of the world who . . . together will succeed to
Peter Howard's leadership."

This is a decision which should please every-

MRA enthusiasts, who love to recite the names of the mighty of all colors, races and creeds who support the movement, will find in

names of the mignty of all colors, races and creeds who support the movement, will find in it reason for congratulations.

As for those of us who remain sceptical, surely we can agree that if MRA has to bombard us with its stress on the absolutes, it is well that the blame be shared by all the participating rs, races and creeds

By Geo. H. Carver Sports Editor

Some time ago the Louisville Lip quipped about on "for a guy who has never been knocked down sure gets picked up a lot"—this with obvious ref-nces to Liston's police experiences. But he brags he's "genan whip Sonny so had in Botton people will say there ain't sobody left who can give me a warmen. And that'll be true. But I'll light Terrell, Patteron and chuweln in on night— and if I'm genna get beat, that'll be the night."

He wants the bouts to be ten-round affairs and all e wants is 10 minutes rest between fights. He ap-arer'ly deem't b'ak too much of ChitYafe for he ares him wall the last, "because I'll be gettin' red by then—and that'll make him a white hope."

The formidble tris-killing will climax the ring areer of the young leaster. He claims he will sign centract to quit ofter the title aspirations of the farmer of quietly latered in a mass grave. "I ill leave the ring world-in peace," he sighs.

"That's good living'. I don't want to keep fighting the next ten years, waiting for someone to beat me."

He may not have to wait very lon. I have a hunch one Mr. Listen will take care of that in Bes-ton on March 25—If he is in the shape that swept him to the world title.

#### Try to Redeem Nation's Good Name

Try to Redeem Nation's Good Name

"Until the United States is free from the kind of official brustilly that red in 64ms, Alabama, on Sunday, is an another of the first he world as the guardian of predom the before the world as the guardian of predom the world as the guardian of the first he world as the guardian of the first he world as the guardian of the first he world as the first he world as the predomen had attacked marching Negroes with whipe, with culture and with tear gas. Mounted men had herited the marchers fleck to their church, beatherid the marchers fleck to their church grand the state throughout the United on Tuesday, in cities throughout the United States thousands of ottissen were doing their best to purp the nation of its sin. White people in the thousands joined Negroes in protest marches, in demonstrations and in picketting defeard holidings demanding the Johnson Administration act to curb the brutality of Alabama's route.

police.

If this protest swells, rather than subsides, if the weight of public opinion forces the Federal Government to provide the same protection to black citizens which it would certainly accord black citizens which it would certainly accord white, then the Examiner will have been proven wrong and the U.S. will have restored to it the right to be regarded as the champion of freedom, democracy and the equality of all men before

If not, if the white people of good will pe indifference or intimidation to drive them indifference or intimidation to drive them into a role of neutrality in which they offer the Negro nothing more effective than their best wishes, then there are dark days ahead for the U.S.

then there are dark days ahead for the U.S.

The Examiner, we think correctly, foresees
the time when the Negroes "will find the law
intolerable and ... will meet violene with violence." It defends such action. After the
manner in which the Natis persecuted the complant leves, it says, "there can be no doubt that
active defense against brutal persecution is not
only justified, but that it is the only means of
ensuring the survival of harassed minorities."

#### In Praise of Travel

1 Profiles would as a forest consumed with status symbols. Just about everything we buy raises the ugly question; Will it stand up before the critical gaze of the neighbors?
It may not be good for the economy, but we have be admire the folk who don't care what kind for any they drive provided it allored efficient and they drive provided it allored efficient preferring to read books and without belaviston, preferring to read books and without belaviston, preferring to read books and without belaviston. But since we are not as subject, mention may be made of today's greatest status symbol.

preferring to read books and inouge m aum purfashined spisitimes as singling around the plane.

But since we are on the subject, mention may be made of today's greatest status symbol travel. Prople are going places as never before. There is no log on my, nor in the thought that you was to the subject of t

thing toward the trip.

Maclean's magazine said recently that more
than 385,000 Canadians will make trips overseas
till year. In 1862 the figure was 311,400.

It is a reflection of a buoyant commy
than 1862 the figure was 311,400.

The world is your oyster, the old saying
the said of the said was the said of the said was the said of the said was the said

Never argue at the dinner table, for the one who is not hungry always gets the best of the argument.—Whately.

# Charrington Tobya Great English Beer. Now in Canada at regular prices.

Toby's as English as the Cliffs of Dover...though it's brewed here in Canada,

It's made with special English hops and toasted barley-malt. Hence its deep amber colour and its robust taste (malty and rich, with a definite "hite" to it). Also you'll notice Toby's smoothness: It has less gas than Canadian beer.

Toby beer is sold under the Carling listing-and at your favourite "pub."

Have a Toby. Find out why Englishmen have been devoted to it since 1759.

EARLY MEETING — This drawing shows an early Salvation Army building in the squalid East End atums of London. The words "Christian Mission" on the building indicate the drawing was made before 1878 when the movement's founder, William Booth, chose the name Salvation Army. He held his first meeting in a tent in 1885.

#### Timing Inappropriate

Fremier Robert has introduced a bill to provide Contarto with a provincial flag, after the style of Quebec and some other provinces. Contarto's provincial flag, after the style of Quebec and some other provinciae. Contarto's provincial flag, if abr. Roberts has he say, would be the Robe Roberts in would as he sath, wymholise the hopes and ideals of the people of Contarto, as a well as the past from which they have gerung."

Quebec's blue and white provincial flag, with its fiser-de-lie does just that. Wigg should not Center's also always its emissers. It is no valid collection to say, as the time dopping, Libertal Auditory, that the past symbolised could not not a past. Flag are designed for majorities.

We in Canada do not account the "mailtime."

We in Canada do not accept the "meiting pot" theory, which would take people from all parts of the world and meid them into something uniquely Canadian. Rather, we are seeking to achieve a unity in diversity, preserving as valu-able the best of the traditions of the immigrants of many personalities—and we are all of us, even the Indians, immigrants or the descendants of immigrants

Immigrants.

Therefore by all means let Ontario fly the Red Ensign, a flag which speaks proudly of this province's traditional ties with Britain, yet which denotes, too, a determination to stand on our own feet and rule our own house.

By all mean let the Legislature approve the Red Ensign as the provincial flag—but not now, while tempers are still high over the Ensign's replacement as Canada's flag by the flag of the red maple leaf.

No matter what Mr. Roberts' intentions may be, and we are sure they are of the best, this more will inevitably be ministerpreted in much of Canada, and not alone in Quebec, as a rejection of Canada's new flag. It will be of no use for Mr. Robarts to repeat time and again his reactiones to accept the maple leaf flag as our national emblem. Actions speak louder than words—and any reasonable man will admit that the adoption of the Rob Rodingin es the provincial flag. In proceeding the provincial great provincial great provincial properties of the Roberts of matter what Mr. Roberts' intentions may

leaf flag.

#### Wasting Time

"The combat-weary Commons doddered through its 282th sitting day Friday." That is how the impartial Canadian Press viewed proceedings on the minth day of debate on the Canadia Pension Plan.

If the Commons is doddering because it is combat-weary, there is an "byrious question which deserves an answer." Was the combat achieve? Was it all

What did the combat achieve? Was It all.

A look at Hanard—any day's Hanard—will
provide proof that much of the time of the House
is wasted by a few members who believe they are
comedizant—or by others who cannot restat any
and or proportionally to get in a dig at a polition of the proportional to get in a dig at a poliThis time-wasting should be eliminated.

This time-wasting should be eliminated any
simple way of achiering this result. The
rules of the House are under consideration and
may be revised. But no revision is Heigh to
sellence all the inantities which have been heard
in the current session, and in past ones, too.

There is only one way in which the majority
in the Commons who really want to attend to the
nation's work can rid itself of the annoying timewasting of a silly minnority.

mation's well-can not used of the amonying same-wasting of a silly minority, was the silly minority of thick-stulled that time-wasting interjections and questions are resented by the serious members, no matter what their political beliefs. To achieve this result would require leadership. For-iunately this, need not necessarily come from tunately, this need not necessa nominal leaders of the parties. sarily come from the

What is the good of prescribing to art the roads that it must follow? To do so is to doubt art, which develops normally according to the laws of Nature, and must be exclusively occupied in responding to human needs—Dostoyevsky.

There are men too superior to be seen except by a few, as there are notes too high for the scale of most ears.—Emerson in a lecture, 1864.

#### Ottawa Offbeat Boring 'Bithinkualism' Boys Become Big Broadway Bust

By RICHARD JACKSON
From The Intelligences's Ottown Re

OTTAWA — The "B and B Boys," those Royal Commission Billingualism and Riculturalism — or, as some people log R now, "Bithlakualism" — go at it again Monday

è crowd.

And this time, they began to get their lumps — in the increasingly bilingual C s pit al, tee where Quebec, mere and more, is taking over in the Pederal Civil Service and the Commission.

What they first opened mattonal tour bare in November of 1863, they were a hit, playing to standing room only and receiving a great hig intensely interested hand. And this time, March of 1865, the Capital yawned, stayed sway in drowes, and so the "B and B Egys" played to an all mo at empty and sometimes hostile house.

as what franchise 66 this Reyne 170 has one of the cost 13,000. The down so far cost 13,000. The down so far cost 13,000. The cost of the

## Letter to the Editor

Editor, Ontario Intelligencer, Let us face it! If the Cana-dians of British origin (and others whose native tongue is English) do not take an united English do not take an united and immediate stand against the malignant pressure for the establishment of Funch as a compulsory subject in all our achools, in the not-doo-distant future our history books will require revision. As the lissue of bilingualism is merely one stop get a planned program, our children set owns batter date will be considered as the control of the while Canada was won from the Fronch by General

and over backwards so far to see the Conber visepoint that he was a seen of the control of the he was a seen of the control of the he was a seen of the control of the three to him for support. If succeeding the He was a seen of the control of the ent of the sation, Mr. Lauren-cotten asteomistic claims on the rest of the sation, Mr. Lauren-town, and the control of the control of the control of the control of the rest of the control of the control of the control of the control of the laurence of the control of the control of the control of the control of the laurence of the laurence of the pocket.

Bearing on Constipation of Conservation Development of the Tenders of the T By JOSEPH G. MOLNER, M.D.

Dy JOGETTE G. HOLITIE, M.D.

Dura Dr. Michael I had a linearism this tools is all that stroks II years ago and ever is secessary. This low this policy in the property of the SCOTT'S SCRAP BOOK

to do.

First, add more bulk to your diet. Whole fresh fruits or vegstables contain cellulose — the fibre part. It is not digested. It remains as "bulk" which in turn helps the bowsis to more a n d, by abser volume, urges them to. It gives them "somet hing to work on." Dear Dr. Molner: Please ex-plains fibrosis of the lungs. Is it curable? — Mrs. A. M. C. It means the formation of sear tissue in the lungs. This occurs to a moderate degree from in-fections such as tuberculosis, gives them "somet a 1.s or "to co."

"recommend apples, oranges, reapples, celary and wagelies that can be esten from the conlarge transport of the conare, amount any find of fruit's vegetable is good.

Prunes, sweetand or unaweeted have a mild lazative acm. There are also various preretions containing mail a nd her ingredients that stimulate
tion without being harmful.

Plank more water. In many

Would Be Useless

service employment is concerned, billingualism is a non-way street. It has been pointed out of the property of

al Wolfe on the Plakes of the

uation indeed.

(3) No one can dispute the fact that the life lines of the fact that the life lines of the Canadian people are invrocebly tied to Great Sritati and the area and well. The for years to come, and whiteless it he social, contention, or fee - protection, we are in constant contact with school fill office and the contential people whose set in content of the content o

## Mrs. Oliver's drapes tell the dramatic story of clean electric heating

Mr. and Mrs. R. Oliver live in an elec-trically heated home near Peter-borough. The Olivers are one of the many families recently interriewed throughout Ontario to discover their personal ophinons of electric heating.

Here are some of their comments: "Electric heating is clean, very clean." There's no dust or film left on my windows, walls or drapes. I notice the cleaniness particularly with the drapes. We have lived clean them, etc. I not or other hows, I had to clean them every year." "I don't have to wash my walls as often as I did in our previous home. They stay clean longer here. They really do."

"When you have company, you don't find yourself having to rush around dusting at the last ininite. Electric heating care the last ininite. Electric heating company to the last initial to last initial to the last initial to the

# PORT

By Geo. H. Carver Sports Editor

To hear some people talk Canada has taken a dive into the turbulent waters of world transite

he United States has its "Selma" and the Vie China is playing around with some hig firework

d stots rooms.

Resicilly essenth in the shadow of the "Pasce" was down Ollars way, our publicians are at each say's Grooks in any way, of shakes over calinet for lines and sincety father.

For get up new that every this a member of citizeness leaves that group and breaks set of the members he is farswelled with "An Rivard."

The Victnamese situation is reported to be cau in the lute of the British Labor Government.

The Japanese, it is stated, are new trying to feist tree-package deals on the Canadian market. They're acteding miniature motor care with haby transistant

Nasser, the Shelk-down of all the Arab tribes is catening to call out his Riffs if Israell doesn't stay its own side of the border.

And they think they've got troubles,

The cry-haver that echood across this nation on the Crecks submerged our national hockey team teath a torrent of eight goals, make their troubles is like a child that has lost its candy in comparison.

The funny part of it is a lot of the people who ised our training and selection efforts are howing to heaven over what they think is a national calamity.

The "bockey students" of the European stepp o "learned about shizary from us" are no long-ing applies to the teacher. They're bringing alor be and beating the hell out of us.

The thumping should teach us that patchwork taing and organization of a national heckey team a not make for a quilt of victory.

It is time we met hockey fire with fire and until the "teacher" can emulate the "students' " method of training and selection we'll have to be content with being "absorans."

platio as were society competition.

The Orichis thiched the helphers set of un-said made un like it. It is not, an one of the former shelledlike McTraintion spined, that they are much helder than like years back in 1509 but that Canadata to up occasion he world tearmounce has the grown than the world tearmounce has the grown that the properties of the

There is talk in not a few quarters that Canada ald drop out of international competition. There is 'fhell with them—let them play their game and we'll ours' attitude.

Turning "chicken" when our hockey knuckles being rapped but good by teams that are better a ours would be the worst thing we could do.

The reasonable factimile we produced of the salan and Crech system of training and player se-tion has not proven to be the short cut to prestire

Nor has it proved to be a better system, hockey-e, than the former "community" set-up when he like Whitby, Belleville, Trail, Chatham and are represented the national honor.

The cost was heavy to the various communities (and don't we know it) because no financial hely from government or other sources was available.

Okay, ekzy, it cost the team-sponsoring kami plenty—but by the Lord Harry, their puckchas came home with world channionships.

## SPECIAL this WEEK

THE VERY POPULAR

CLINTON MASSON

## THE RED LION

THE REDWOOD MOTOR HOTEL Trenton (Licensed L.C.B.O.)

SPECIAL ST. PATRICK'S DAY PROGRAM

Some people think the Volkswagen 1500 is a big car. Some think it's a small car. And some think it's a compact.

## Why?

It's a big car because it can carry savan children, a mother and eight sailes. Or it car, hold five grown-ups stiting down.

It's a small car because it's three feet shorter than most station wagoas:

And It's a compact because we don't waste a single inch of space.

How?

deep down in the bock. So you have a 5/j-foot fill floading area. And up under the frost hood we put a trusk. Just like in our famous bestle-shaped sedon. And then we coded all the other advant-ages of our more familiar looking Volkwagen. Like bestler strotton in mud and sow be-couse our angline is in the rear with its weight over the drive wheels.

And lots of nothing. No radiator. No we And lots of nothing. No radiator. No water to bail over. No hase to leak. No rust. No water pump. No anti-freeze.
And no big gas bills. The VM 1500 usually gets about 35 miles on a gollon.
Which is outstanding for a big cor. Good for a small car, And excellent for a compact.

## Illness Is Costly

This is Health Week in Canada when emphasis is being laid once again on the fact that 50 per cent of all illness is preventable and that the enormous amounts of money spent on care of the sick and loss of income could be put to

ousands of Canadian youngsters are dying Thousands of Canadian youngsters are dying every year because their parents are not well enough informed on preventive medicine. In 1862—the last year for which records are gamplete—a total of 12,941 bables didn't survive their first year. And another 3,822 children under the age of 10 died in accidents during the two

the age of 10 uned in accidents during the two years before that. Many of these deaths were preventable.

It is disturbing to note that Canada's infant death rate is higher than those of 13 other countries of the western world. Sweden and The Netherlands had mortality rates of 15 infant The Neiheriands had mortality rates of 15 infami-deaths per 1,000 births in 1982. Canada's toll stood at 28 deaths per 1,000 births—or nine per cent of all deaths throughout the nation. In an effort to reduce this toll the Health League of Canada distributes educational mater-

ial on infant and child care. In other ways too, the league is attempting to improve the health of all Canadians. As with young people, adults need to appreciate the significance of the word "prevention" in the realm of health. Add word "prevention" in the realm of health. Add one more word, "immovinging," and your channes of survival are even greater. The Canadian Health Foundation, for example, maintains professional and public educational programs to keep the public shoreast of the latest methods of combatting heart disease. Mental health as mother sphere in which public knowledge is vital. The Canadian Mental Health Asposiciation's preception for a healthy mental approach to life may sound trite, but it is nevertheless true. In that the administration of

nevertheless true — that the administration of psychological "vitamins"—love, tenderness and affection—is the most important step in ensur-

ood mental health Often it is not as simple as that, as in the Often it is not as simple as that, as in the case of intrinsic mental deficiency or chronic liness such as schizophrenia. But even here there is hope, for the Sweeds have discovered that by changing the patients environment a marked improvement results. Swedish patients were flown to the Italian Riviers where the exotic combination of sun and schery worked wenders. Men and women who had as the silent in lonely hospital rooms, people who had never spoken to another human being in years, slowly came out of their shells.

With the normal human being, who can also be a little neurotic at times, it is often a case of simply not feeling sorry for himself in a diffi-

It all adds up to the fact that good health ical or mental—is often just a matter of n sense and taking the rough with the smooth

## Spring Dream

1/ 1 If, in the spring, the young man's fancy does not lightly turn to thoughts of love, there is a

-cell-splitting. Before anybody jumps to the erroneous con-clusion that we are talking about some subversive ctusion that we are tanking about some subversive activities by card-carrying communists heeding some Marxian commandment to multiply, let us hasten to explain that we have here a problem which is pathological rather than political in

cording to the Institute of Pathology of the University of Freinury, West Germany, our body cells are always splitting, but this increases in the spring. This enormous physical stress influences our disposition, making us feel listees and tired, explain these German experts.

This all sounds very reasonable-and even reassuring, providing us with justification for that lasy feeling which is much more often the product of spring than is love

Yet the poet still bothers us. with the poet still bothers us. His observa-tion has some validity. Love may not be as common as spring laziness, but it does come to many at this time of the year.

Here we find poetic fancy and the facts of

Here we find poelle fancy and the facts of life running contrary to the findings of the path-ologists. For, according to the University of Freiburg, while spring speeds up cell-splitting, advancing age alows it down. Now if spring's increased cell-splitting makes us itted, age shows in the contract of the contract of the contract of the contract of moon, June and a running seat (remember libra) and still best the youngster in the lone

it would work.

## To Your Good Health We Must Accept Fact Radiation Is Harmful

By JOSEPH G. MOLNER, M.D.

ed that "D.S.C." meant "doctor of science, chiropody." It means "doctor, surgical chiropody." As a D.S.C. of more than 30 years of practice, I enjoy reading your count, but this was an error.

— Dr. D. Y.

TV Wrecks

Handiwork

By R. J. SCOTT

Dear Dr. Molner: Will a tooth X-ray (two plctures) when I was about six days pregnant affect my haby? — Mrs. J. F. Ever since we have been in 'the atomic age' an encormous number of people have become very much alarmed about radi-ation — whithap from an atom bomb, radium, bea. X-ray, does bomb, radium, bea. X-ray, does not be the state of the same nature.

rays, or the radiation, are of the same asture.

The same sature are same as the same in a same as the same in a same as the same in a start of the same in a

Dear Dr. Moloer: My daugh-ter feeds her boys, aged S and 7, only the yolks of hard-boiled eggs for breakfast, maintaining that the white doesn't have G. W. W. L. Sa her right?— G. W. W. L. Sa her right?— G. W. W. L. Sa her right?— Egg white is albumin; hence a form of protein. It is nouriab-leng and good food. Two: The amount of radiation is vastly important. A little is of no consequence. Too much can be harmful or even deadly. But there are many other dangers of there are many other dangers of which we can say the s a m e. Walking past an automobile with the engine running harms us not at all. But staying in a closed garage with the engine running,

The advent expositor to the sheltand islands has so revolutionized social life there that the cottage industry's couput of handwoven garments has failen off drastically. The womenfolk are too busy knitting their brown at their favorite televizion shows to sweat over sweaters. Demand for the stand of his die goods is out-

## Indians Need Help

With the fires of billingualism and bicultur-alism still smouldering and likely to do so for years to come, it is easy to forget some of Canada's other, long-standing, sociological prob-

lems.

The problems of our Indian population, for example. The Toronto Star Weekly's fearnthing Locke receivity wrote a series of articles on the plight of Indians alross the country. She pin-pointed the ratiust of an administrative system that allows the country's original inhabitants to like in-aggregated inverses that in many cases are stuns of the wonst order, while as the same time 'accepting treaty modes and enjoying a tax-free existence that discourages honest industry and effort. and effort.

She explained too that the Indian is not necessarily the indolent, unemployable, liquor-leving individual that many Canadians envisage, but a human being with needs and aspirations

like anyone else.

We do not profess to have any ready answers
to the plight that many Indians find themselves in
today, powerty-stricken and Ill-educated as
they are, despite government assistance. But
it does geem apparent that as a recal entity, a
cone proof people who have lived in this country
give proof people who have lived in this country
give proof people who have lived in this country
that progress, has been not only plitfully slow.

their progress has been not only pildully slow but unnecessarily so. har-Tineta Horn, Mont-real fashion model and a staunch advocate of any and all jegitimate means of bettering the lot of the indian, including self-thelp, told a Toronto university audience than in 35 years' time (Canada's, Indian population would be 1,500,000-or roughly one out of every 35 persons would be an Indian.

She said Indians need housing, medical care, ommunity planning, training and education— and an interest among Canadians in the walfare dians

of Indians.

It was a poignant plea—and one that, with any finterest at all on the part of Canadians, should ultimately beaf Turk. The Indians as a race can no more stand still than any other group. The Indian must extend still than any other group. The Indian tunet start helping himself said must receive help from others. And it might as well be now.

## Warning From Mink?

Percy Noble, the Progressive Conservative
Tember of Parliament for Grey North, once gave
a mink cost to the beauteous Sonja Henie,
Nothing senadous about his; Mr. Noble is
a mink rancher and the gift was designed to win
publicity for certain mink mutations which Mr.
Boble, and other progressive breeders, were just
developing.

Books, and other progressive breefers, were plant developing.

Robles, and other progressive breefers, were plant developing.

Robles, and on the progressive breefers, were plant and the composition of the composition of the mink business. Most of his 600 male mink—and one can be fairly certain that these included are animals from which he hoped to produce now mink shades—have been sterrilized.

The sterliting agent was stillnestro, a chemically-drived remails from which he hoped to produce now mink shades—have been sterrilized.

The sterliting agent was stillnestro, a chemically-drived remails bornome drug. How did the minks get hold of 12°. Mr. Nobib believes they got it in mink feed made from chicken based and entrails. Although the drug has been outlawed in the pourly business, he thinks some poultry farmer must have fed it to roostern later killed.

aser Killed.

If you find yourself unable to view with alarm the dire prospect that there may be a scarcity of mink coats for the current crop of blonde beauties, we will let you in on a little

secret.
Stillbestrol is extensively used in beef cattle ranching to sterilize calves and allow them to reach market weight faster.
When calves are marketed they become veal

when caives are marketed they become veal and veal is generally fed to human beings and not to mink. We presume that some authority has ruled that there is no danger of a silbestroifed call producing veal which would result in the sterilization of the human mate, but has anyhoody fully investigated the long-term effect of the second of

of such a diet?

If a mink, with its reputation, can loss its minkhood as the result of chewing on the remains of stillestrol-fed roosters, there is many a man who will discover that he suddenly does not feel like yeal for lunch.

Good manners is the art of making those people easy with whom we converse. Whoever makes the fewest persons uneasy, is the best bred in the company.—Swift.

## Ottawa Offbeat Harry Hays Comes Out With Some Good Plain Talk

By RECHARD JACKSON
From The Intelligencer's Ottown B

OTTAWA — Love his Five Horry How, the follow, plaid pole-lyes Agriculture Minister whose species so often some what country how used to bese recorded the crucies watch agreement after.

Ill "table," as he calls them, so the targetness around the remains the latest the partial some.

Ill "table," as he calls them, so the targetness around the remains he has a takent for golfflet them as around the bloom of the second terms of the second terms

what kind of a cow it's attached a JOB TO DO.

To put ower his point, he compared basely conclets for woand in these precise words.

". with all dan respect to the compared basely will be a separate to the compared to th

ent is the udder, regardless of threed." but the difference to the

ervice.

And he makes solld sense.

## Grants Up. School Levy To Go Down

Public school schucation in Belleville for 1965 will cost an estimated \$1,379,330 — up \$37,000 from last year. But due to expected grant locrease, together with balance from last year and other in-creased revenue, the local levy is expected to be down slightly from 1964.

# Mikita Has Scoring Title In Grasp

By Geo. H. Carver Sports Editor

For many years the Quinte Figure Skating Cleb, one of the top organizations of its kind in this part of Outsite, has staged colorful lee extravagament as a climax to peasual activities.

vagor, injuries.

It was prehips with this in mind that the club selected on an unusual departure from the color and augmentity of its ansual circumstances.

It is called a "Pape Obsect", a mane which rained cyshrows in some quarters. So to make encrybedy langue jets any the other And "Personalities or Extrade" in about when it adopted the word, "POD."

Demonstrating the many aspects from the "young-est" junior to the experienced "meternas" will be Ro-berta Driscoll, Michael Fitziphon, Mrs. Olivia Weess, Peggy, Foley, Marilyri Duminie, Susan Bestite, David Bestite, Eveline Palises, Rozanne Rove, Paltry Jean Allore, Lyname Rowe and others:

An insight into the graduated training of the ung skaters of the club will be given in demonstra-ms of the "Star Tests" from beginner to the "Gold ur" graduate.

Interest range.

The feature of the "concert" will be the pairs skatting of Saina and Fred Hochertpres of the Upper Conside Figure Stating Calle of Trevent. They are the reigning Canadian sense pairy icknowledges and Spinces Called in the Month American Championships held in Rechoster Last month. They were members of the Canadian World Figure Shating Team at Calendo.

An added straction is Robert Emerson of the same club as the Huelmangards. Mr. Emerson was the juster merk tree skining champion in 1864 of the Central Outsire incellon of the Canadian Figure Skring Association. He will demonstrate the style and grace that swept him to a title.

A feature will be the dencing as a couple by club professionals, Paul Tation and Mrs. Beanie andy, whose outstanding work is a household word city and district figure shating circles.

# '65 Buick Special: The trim, thrifty way to enjoy Buick style, Buick performance, Buick prestige

Buick Special offers traditional Buick quality at a remarkably moderate cost. It's trim in size. It threads its way through busy city traffic with ease and fits into the tight parking spots. Yet it carries six in typical Buick comfort. It has its own lively brand of V-6 performance that puts the emphasis on thrifty motoring.

But it keeps up with the best of them on the highway. And if you're really red blooded, you may order one of the two Wildcat V8 engines. Altogether, there are 14 Buick Specials in 4 serieseach one luxuriously Buick: Skylark, Special Deluxe, Special and Skylark Sportwagon. Wouldn't you really rather have a Buick?

# St. Patrick Would Approve

St. Patrick himself would have approved of the recent meetings between the prime admisters of the two Irelands. The news that Mr. Termes-O'Nell and Mr. Sean Lemass had held neclarosal allab in Belista and Dublin was the most hearten-ing to issue from the Emerald Isle in many a long

Mogical as frish politics may have appeared in the past, this repprohenent is acceptly a natural outcome of the new pict. But the table period in the past, this repprohenent is acceptly a natural outcome of the new pict. But the table period in the table period in the table period in the period

as grown apace since the war, and workers who armerly emigrated to England, or to this con-nent, are returning to their native heath.

ment, are returning to their native heath.

Uster has modernized not only its traditional
shipbuilding, linen and heavy engineering industies, but has gone into a whole new range of
anterprises, from the processing of porcelain for
insulating purposes and tableware to production
of optical lenses.

oplical lenses.

The republican south has its Shannon indus-dal estate, and has been busily establishing new-markets and offering European and North Amer-an firms attractive terms for setting up new nts in Ireland.

sante in Ireland.

The tourist industry is still a big money pinner (the Irith Tourist Board has just opened new office in Tournic), and you can take provide, from rented cars to the more leisurely amaportation of a Shannon river barge or a sme-drawn gypay carawan fully-equipped with mike and store,

numbs and store.

On this day celebrated by Irish and non-Irish, he world over, it is well to reflect on the Irish, the world over, it is well to reflect on the Irish at 1965, to achieve a more realistic picture and an encleral land that has come a long way from the large when its patron saint and his fellow missionness kept the light of Christianity and knowledge ning throughout Europe, even in the darkest

## Our Secret Love

That automobile you drive—is it a necessity

have out every even such loyes to the control of th Inst automobile you drive—is it a necessity is merely a costly convenience?

Consider these facts: sales of new passenger are in Canada in 1964 increased 10.4 per cent in obtune from the previous year—every second car ff the assembly line in North America is destined be involved in an accident that will injure

Emonoma.

Drive in Quebec and the chances of your pering involved in an accident are even greater, PATY Well, as anyone with even a passing acquaintance of Le Belle Province knows, driving substances of Le Belle Province knows, driving substance of Le Belle Province knows, driving substance of Le Belle Province knows, driving substance on the perind the perinding of the perinding the perindi

ec, but last year there were more fatal accidents in Quebec roads than there were in Ontario— 363 in Quebec and 1,202 in Ontario.

the Exchequer.

But Butler saw Sir Anthony
Eden chosen shead of him
when the leadership became
vecant.And he saw Harold Macmillian chosen ahead of him in
the next vecancy. And, in a
third harsh experience, he saw
Sir Alse Douglas Home chosen,
under circumstances of party
manocuviria. However, comparison with Quebec (where illic temperament, accounts for a multitude of as) is no reason to make Ontarians feel com-acent. There are far too many careless drivers this province, others who are downright reck-sa and still others who are accident-prone any-

Wherever people drive cars it is the same, a inquiry into British motoring habits has realed that some drivers are secretly in low whether cars (as if we didn't know) and that many where have emotional and psychological problems. The auto, Britons were told, is an extension a driver's rearmantity.

ma. The auto, Eritons were fold, is an extension is a driver's personality.

Well, there's nothing new in that either, but idoes help to explain a iot of things—like Belleidle's hot-rod boys who roar down the main street it night, and their coustins across the entire land. And the answer to our initial question? Well, Famadians can scarcely do without their cars. Shely will just have to go on living with them shelp well just have to go on living with them to be a superior of the state of the st due to take a new driving test star or many of us it won't be too soon. st starting in 1967.

The freshest pork sausages, come from Burns ... daily!

And, they're the plumpest, porkiest sausages you ever

Burns takes pride in its highest quality pork ... seasoned just right.

All you do is add the sizzle...and fresh, flavourful nourishment is guaranteed everytime!

"I SAVED \$5.48 AT FOOD CITY ON THE IDENTICAL ORDER I SHOPPED THE SAME DAY AT MY REGULAR FOOD MARKET".

says Mrs. Barbara Riley, 27 Southwood Cres., Belleville,

Mrs. Riley's enthusiasm is understandable. She paid \$76.83 on a shopping trip made at her regular supermarket- a large local chain. She bought the same national brands and quality at Food City and paid only \$71.35. Quite a saving.

It's typical of the kind of savings you can make everyday of every week at Food City. Over 52 weeks you can save enough to shop free for a month.

# PORT

By Geo. H. Carver Sports Editor

It says here that May 1st and 2nd have again been sinated as Derby Days in Pickerelville.

Last year the bine ribbon event of the Walleye Spring Steet attracted nearly 1,000 anglers from the city, district and faraway places. This year both city and Pikton spinoure outbrack that 1,500 will seek the clustve, done as well as handsome prizes.

The Prince Edward Chamber of Commerce, Derby ters in this area, have again come up with \$1,000 in ses, six in all, including two "firsts."

A 9% herespower outboard will go to the angles living outside Prince Edward, Hastings, Lennox and Addington, Frontense and Northumberland counties, This is valued at \$410.

Meaning motor worth \$310 will go to the angler ag in the big eace and who resides within the ementioned countles. There are four losses

Last year Lorne Nelson and son Don of Picton h in the big winner, a 13.3 pound beauty hooked a Outlet Park with a minnow.

Gordon Irwin of this city took second prize with 12.9 pound specimen caught with a June bug and cluster of worms off the mouth of the Salmon River.

Jack Wardhaugh also of this city came up with a cleven pound beauty good for third prize. Had sek weighed the fish within reasonable time he ight have win the top award. The Prince Edward Chamber of Commerce came for some criticism last year because of the fact maintained only one weighing station, and that in

Anglers fishing in the faraway spots of the Bay of Quiate and its river-mouths do not, a lot of them fell, have the same chance as those angling close to Picton and the lone weighing spot.

Several suggested to this department that fish tid be weighed at various places on the bay, and ults telephoned to a general headquarters in

I do not know if the suggestion was forwarded to the sponsoring body. In any event there has been not change made and apin this year all entries will, be weighted at Repours' Bay Marina at Picton. Here official weighter will operate from 10 a.m. to 1 p.m., am, to 3 p.m., the second day.

Last year the fish reciprocated fairly well, depend-on what was sought. Pickerel bit well as did to but ligar closes, helic your, spots. General cassessus last year was that the "bay in selleville" the mouth of the Moles and other vivers, the activate the selleville of the mouth of the Moles and other vivers, the work of the selleville of the selleville of the mouth of the Moles of the Moles and the Mole

While the top pickerel catches ranged between 11 13 pounds several between seven and ten pounds re recorded. The average pickerel weight in the nee Edward Derby was between five and six pounds.

Last year those who sought the flany quarry at he mouth of the Trent River were disappointed with the majority moving later to the mouth of the distra. There was a plentitude of silver hass that pubbled pickerel batt almost as fast as the angiere

Pike were biting well around Twelve O'Clock Point with some nice 7-8 pounders being hauled in. Fred Armstrong pulled an 8½ pounder out of the heay. An auknown youngster boated 3± 17-pounder near the mouth of the Moirs—and forgot to register

Then, of course, there was the famous "gour-met" pickerel entered by an angier from Oshawa. It topped all the hig boys but some inquisitive judge discovered in time that the hig fellow had been dining on lead sings.

Senior OHA Finals

the semi-final.

Bill Ford scored Cakville's at three goals while Jack co scored what proved to be winner. Norm, Sibblek got fifth goal on an open net has seconds remaining after dataset, but the final minute.

minutes of the game. Wood-ix scored once before the clusion of the period and ed two unanswered goals in second to take a 3-2 lead.

WOODTOCK (CP) — Oak-vus penalized for interference, The Country of WINNIPES (CP) — Winnipes Blue Bombers today an-nounced the signing of velaran can type 13,40 words a min quarterback Hai Ledyard for the 1858 western Foobball of the 18ble in less than 69 n

we suspect that they also added a rarer lagredient . . . a spirit of goodwill which, perhaps, even in that troubles thand with is history of old hates, infected some of the embattled Greeks and Turks, at least to the creent of making them amenable to reason. So, to the Guurds, we extend congrabilistions on a job well done, the proof of that being the fact we have heard so little about them in the later weeks of their tour of duty.

### Revive Endurance

In 1492 it took Columbus two months and inne days to cross the Atlantic.

Today it is routine to make the trip in nine curs, and it may soon be done in two.

hours, and it may soon be done in two.

The modern age puts so much stress on a fast two withings have been speed, and pays so little head to endurance, that superiority of the jet plane over the sating ship and nerer ask ounserse why the plane cannot fly as long as the Pinta could float.

That, anyway, had been our approach until along came Group Capitain A. U. Houle, commental station of the ROAT's central experience of the or almost as long as Columbus sailed the ocean

During their tour of duty, the jets would load and unload passengers above various parts of the earth's surface, by modifying current re-fueling techniques so that a flexible tube would transfer passengers between the big jet and smaller ferry aircraft.

smaller ferry aircraft.

The plan would have many advantages, reducing payload to weight ratio, eliminating need for de-licing equipment (the big lets would be based in warm countries) and making standard landing gear unincessary.

A thin is a superior of the standard landing gear unincessary.

If no or labor trouble keeps transfer aircraft if no or labor trouble keeps transfer aircraft.

grounded? Stewardesses are going to get awfully bored sitting in the same pilot's lap for a couple of days, circling the North American continent.

# **Unsatisfactory Settlement**

Israel is allowing United States engineers and officials to inspect its atomic reactor in the Negev Desert. Earlier the International Atomic Energy Agency had been refused the right of

Energy Agency had been retused the right of inspection.

Both the United States and the UN agency want to be sure the reactor is not being used. The control of the control tion by Russas as a guarantee that a communist satellite was not using a reactor to produce the raw materials for weapons. Why, then, should Russia, or for that matter the Arab lands, be expected to accept a U.S. Inspection?

The correct attitude would have been for the U.S. to insist on inspection by the UN, rather than to undertake the task itself.

Madam! You can end your washday drudgery forever!"

Yes, you can . . . and here's how! Someone has finally thought about the housewife and all those loads of wash. (This machine does 24 lbs. in 30 minutes). However thought about us with a miracle machine that makes it fun. No wonder it's the most balked about new appliance in Canada today!

SEE THE NEW 1965

**Washer-Spin** THE MOST TALKED ABOUT NEW

APPLIANCE IN CANADA TODAY

'You won't believe

your eyes!"

The Facts! ABOUT THE IDEA

These are

"Gland the Performance "Gl

Washes and dries 24 lbs of clothes in 30 minutes

YOU'LL SAY IT'S A WASHDAY MIRACLE!

Here's why! "You'll see a mincie in action tight before your very eyes. Thousands of Canadian bonaseries have seen this machine demonstrated and they could hardly believe their eyes. They said it was a mincie and it is. It's a system so fanisatic that it has swept Canadia like whilefur. Time tested in the United States and the savept Canadia like whilefur. Time tested in the United States and homes. It's new ... but not radical ... but the most derived in millions discovered to millions alice the copper tub. Here's what women like about it! TIS SPEED: as little as three minutes cycle from tub to ironing board. TIS CONYEMI. SECKI: rolls right in the SECKI: rolls right up to your tellchen sinks and type can rises right in the compact, easy-to-move on casters. Special top, allows it to double as an extra counter, TIS CLEANING POWER: criss-cross cleaning action fascinated most women because it forces water through the clothes while they tumble up, under and around in the stainless steel tub. TIS HOOYEM RAME: Grunt-up, under and around in the stainless steel tub. TIS HOOYEM RAME: Grunt-up and take a look. Briting your husband.

# A Sorry Performance

Tuesday the Canadian Press reported in an

Tuesday the Canassas races approach and Ottawa despatch:

"A combined Opposition failed Monday night with a half-hearted attempt to force an immediate reduction of the qualifying age for old age security payments to 65."

Was the use of the adjective "half-hearted"

Was the use of the adjective "half-hearted"

justified. The government won the vote 86 to 51, aithough the combined opposition out-num-

bers it.

If that fact does not justify the use of the
term half-hearted, we do not know what would.
Half-hearted attempts to win changes in
government bills, in a Rouse in which the government is a minority one, are strictly windowdrawnian.

They are not serious attempts to improve the property of the property of the provention of the pression age were indirect. But it does not make all those who argued in favor of the immediate reduction of the pression age were indirect. But it does not prove the provention of the pression age were indirect. But it does not be provention of the pression age were indirect. But it does not be provention of the pression of the pr

As between their attitude and an honest government's proposal that the age be lowered gradually, on the grounds that the treasury could not stand the increased cost of an imme-diate reduction, there is no doubt as to which stand deserves support and approval.

GLEANINGS FROM OUR FYLES OF BYGONE YEARS

20 YEARS AGO March 19th, 1945

March 1990, 1965
At a special meeting of the Beheville City Council hald on Thursday Swinting, the numicipal tax rate for the saxing year was set at 50 mills, a reduction of law mills on the rate that prevailed last year. This reduction was accomplished dispite the council was forced to meet by giving increased services to the citizen.

Worship gave a resume or the year's business.

The Public Works appropriation increased approximately \$10,000. This amount is necessary from the increased cost of snow removal, due to excessive snowfall this winter. 30 YEARS AGO

March 19th, 1935 Miss Helen Asselstine spent to weekend with friends in

City.

Mrs. Jeck Clark, North James
Street, spent the weekend with

#### The 'Blood' Commonwealth

Australian High Commissioner Alexander Downer's recent plea to Britons to pay more attention to the countries of the old "blood" amonwealth - Australia, New Zealand and

Mr. Downer suggested that Britain concern elf less with the new African and Asian mem-This also makes sense, for some Afro-Asian members, having attained their independence, show a marked tendency to bite the hand that once fed them. If such a nation wants to remain in the Commonwealth it should observe the responsibilities of membership. If its wants to go its own way, say toward republicanism and outside the Commonwealth orbit, then it abould be allowed to do so.

Australia, New Zealand and Canada, in concert with Britain, have held the sinews of the Commonwealth together because they are stable, prosperous lands which have contributed of their prosperous lands which have contributed of their wealth and substance in the interests of the whole community. In Canada since the war, as in Australia and New Zealand, Anglo-Saxon traditions have blended with those of the European continent, as well as Africa and Asia, to orm an entirely new society. Yet the basic tructure and beliefs of the Commonwealth community remain unchallenged.

adians take for granted the white comthat these nations have held together for so long, for distance and expense preclude regular traffic between them

But that is what true kinship is all about. Distance makes no difference. We know that Australia the world's Island continent—is where it is, that New Zealand Is 1,100 miles from Australia, Canada some 7,000 miles northeast again and Britain 3,000 miles east of our Atlantic-

seaboard.

Let us keep these blood ties in repair and mechatain a flexible approach to the needs and aspirations of our Commonwealth brothers in Africa and Asia, where uncertainty and disorder are more an integral part of everyday affairs than they are in the older Commonwealth nations:

#### A Changed Society

Nikita Khrushchev's appearance at a Moscow polling booth to cast his ballot was of the greatest againfrance.

The Montreal Gazette refers to it as "stagenaged" but, be that as it may, its imports: managed but, so that as it may, its importance, to Russia and to the world, is in no way dimin-ished by that fact, if it is a fact. The Gazette recognizes that. "Evidently," if says, "the new regime is determined to show that it is secure in its own right, has no need to fear officials who have been dismissed, and has no desire to be

ngeful in quite the old way."

Khrushchev himself is thus among the first major beneficiaries of a policy which he himself

But this civilized attitude of the ruling faction, it seems to us, is not as basically important as was the attitude displayed by the Russians who chanced to be present when Mr. K. stepped out of his chauffeur-driven car at the polling booth. They cheered him.

Booth. They cheered him.

Surely this was not just stage setting? It is difficult to believe that, even in Russia, things could have been so nicely arranged that only a hand-picked group of spectators was in the vicinity of the voting place when Khrushchev arrived. No, it appears likely that the cheer was spontan-cous, a demonstration of how the average man-in-the-street feels about Khushchev and the way he

governed the country when he was at the helm.

In much the same way would a London crowd have greeted Churchill the day after it had voted him out of office in the first election following the war in which he so ably and gad-

unity led a united nation.

When the common man in Moscow feels this way, and when he is not hesitant about showing his feelings, it can only mean that a real transformation has taken place in the whole outlook and attitude of Soviet society since Stalin's days. lantly led a united nation.

When you are telling a young woman that when you are telling a young woman that he is looking charming, don't sound surprised or seem to imply that it is a pleasant-change. And no man who, like me, has been married for well-nigh fifty years should suddenly tell his wife that has deaply the light with the standard of the stan wife that she is adorable. She will only come to the conclusion that he's been at the slideboard again.—Commander Ibbett.

## NOTICE TO THE PUBLIC

From the Belleville Fire & Casualty Insurance Agents' Association.

#### INVESTIGATORS

We are advised from many of our automobile insurance policyholders that persons have been calling at their homes and attempting to ob-tain personal and private information. The Believille Agents' Associa-tion wish to advise the following:

- (1) These Investigators are not representing the Agent-
- (2) You do not have to talk to them or give any information about your self, your family or your neighbours.
- (3) Their name and address should be obtained and their credentials.

#### CAR INSURANCE SURVEYS

We have recently been advised that many homes have received phone calls under the pretence of a car insurance survey.

- (a) We understand this is not a survey but only a car insurance company trying to obtain personal and confidential information about your auto policy.
- (b) You are not under any obligation to give any information to this person.

IT IS OUR SUGGESTION THAT YOU REFUSE TO TALK TO THESE PEOPLE AND THEY WILL SOON DISCOVER THAT THESE METHODS OF INVESTIGATING AND SOLICITING ARE OF LITTLE VALUE.

THEY'VE PROVEN SO DEPEN. DABLE, SO TROUBLE FREE, THAT WE'RE PROUD TO BE THE MAYTAG WASHER AND DRYER SALES AND SERVICE DEPOT FOR THE QUINTE

As you know, you can find a wide variety of prices on automatics. In almost any apor prices on automatics, in almost any ap-pliance store including THE JOHN LEWIS pliance store including THE JOHN LEWIS CO LTD. you'll find prices ranging from \$199.95 up to \$465.00 on automatic washers. However, if you're looking for Performance, Dependability and Versatility, all at a rea-Dependability and Versatility, all at a rea-sonable price, we'd like to suggest MAYTAG. PERFORMANCE: Maytag is another word for clean clothes. Maytag plonered the agitator principle and its thorough wash-ing ability has long been a standard of comparison (both leading consumer survey magazines back this up).

VERSATILITY: Maytag washers let you choose your own laundering techniques. They do it by giving you pushbutton selectors for temperatures, fill levels, speeds and times.

This is the washer world famous for opendability. Ask any Maytag tustomer. They'll tell you Maytag is the one that works day in, day out, year after year.

# PORT

By Geo. H. Carver Sports Editor

time ago officials of the Tweed headquarters, Forests Department sought, through the various list and by official bulletin to game and fish as, the assistance of dog owners, hunting and, in curbing the needless alsugatering of deer othern haunts or wherever they happen to be.

tre is no way of telling how many deg-owners ted with the departmental request that dogs up, especially those in the districts adjacent hunnis, but there is evidence that not a few

The Tweed headquarters of this department says in bulletin that its officers have recovered several deer, the last few days that were killed by marauding

One deer, a hig buck, picked by by Deputy Chief anger Doug Mamford, and conservation officer Bill utchison, was still alive. A hig gouge had been rm est of a hip, but otherwise it appeared to be in

An effort was made to save this deer—the officers tied the animal on a tobeggan and pulled it away to a secinded cedar suam. The sext day, however, the deer was dead. This is quite usual for when deer become completely exhausted from a long chase they seldom recover.

And the deer-stalking murderous brutes g the breaks from the weather man.

Many large flooded areas in the north are now nothing but glare lee. Soow-covered fields and forest floors and glades are covered with a heavy crust. And with does heavy with fawn at this time of year the dogs are able to overtake them.

Allowing doys to run at large, particularly at this line of the year is contributing to a needless waste of this natural resource.

Department officials say they are going to clar wn both on the dogs and those who own them.

Any of the dogs found by department efficers will be picked up and, if the owners can be determined, charges will be laid under the Game and Fish Act. If ownership cannot be established or where dogs cannot be caught, the animals may be destroyed.

This is no idle warning. Already a number of dogs have been destroyed in areas of the district that are known to be frequented by deer,

## Health Plan to Cover All People in Canada Needed Labor Institute Is Told

anson needs a need and pain over all its people, Albert rn, Canadian vice-president be Building Service Employs International Union, told a verille audience Saturdey it.

Addressing guests at a ban et held by Belleville and Distet Labor Council in the Paritile Community Centre, Mr. narne said a non-profit, conbuttory plan, as recommendby the Hall report, was said.

red by the Hall report, we needed.

"A plan such as this is on of the great gaps remaining i Canada's social legislation," heald.

Mr. Hearn said the force anged against an all-Canada realth plan were greater than might be suspected. The insurnce and trust companies, the sanks, the medical profession there are the people who are obbying in Ottawa to knock lown a national health plan, and to have us take a modified ala."

He said an Alberta-type plan.

He said an Alberta-type plan
and the one now being put be
fore Ontario which did not corer those who earn between
25,000 and 30,000 a year yeauseless instrument in our acc
lety." He considered
that the people who
meed it most."

need it most. The unique meed it most.

The unique official warned of rowning unemployment resulting from automation and said. "Surely our children and granded alandard estitute to a continuous substitute of the control of the cont

part in the achievement of a better society.

Referring to the new national pension plan, Mr. Hearn said it was a great improvement but its weaknesses were manifold.

#### Ontario Publicity in U.S.

Americans still think of Canada as a wild ness of rock, forest, lakes and fish, according to F. J. Boyer, advertising director of the Department of Thursem and Information

It just goes to show how poorly informed are the people of the United Stafes on the subject of Canada. This is not altogether the fault of our publicity people; it is just that Canada is virtually a closed book in the American educational system.

Bional system. However, this still doesn't explain the ap-parent lack of curiosity on the part of our-neighbors across the border. Of all the sub-jects one learns at achool, geography is surely one of the most absorbing. It is natural to want to know about other countries, beginning with those closest at home. But a Canadian victing the Tulted States finds he might as well he from another planes for all the seath. m another planet for all his hosts know shout Canada

Yet thousands of American do come here ery year. What do they learn of our ways? they probe\_much beyond the campsites and aches, a quick look at the redcoated guardsmen on Ottawa's parliament hill or a visit to such places as Upper Canada Village?

Or do they go away from Upper Canada
Village displeased in the discovery that the
nearby Battle of Crysler Farm in 1812 ended
in an American defeat, and swear never to return?
Surely not, for such milestones in history are interesting and are part and parcel of the heritage of both countries.

The Americans who come here hall mainly from such neighboring areas as New England, New York, Pennsylvania, Michigan, Minnesota, Wisconsin, Ohlo, Illinois and Indiana. Registration plates from other states are not so much

Mr. Boyer told the legislature's Highways and Tourism committee that Americans apparently don't know that Ontario has good highways. food and accommodation and urban life similar to that of their own country. While this may be partly their own fault, publicity from this side halso necessary. The provincial govern-ment, in pursuance of this, is inserting seven color advertisements, each containing four Ou-tario scenes, in five United States publications.

The advertisements should lure more Ameri-cans to this province. As a further stimulus it cans to this province. As a further stimulus it would be a good idea, in addition to reminding visitors that this is a modern community, to make brief references to Canada as a nation, its position in the Commonwealth, and its traditions.

#### Automation in Backward Lands -

Industry in India is ripe for automation, according to Dr. Mark Aizermann, a Soviet appetailst in automatic control processes.

In view of India's vast labor pool, this may sound absurd.

The very backwardness of India's industrial

development, though, is a factor in pressing it forward into the age of automation.

"Almost all new industrial equipment uses automatic control," explains Dr. Aizermann.

It is interesting to recall that this is not the first time that this particular paradox has been noted.

noted.

In Dr. Alzermann's homeland, much the same thing occurred early in this century.

Leon Trolsky, in his monumental history of the Russian Berolution, suprised many western readers by referring to the existence of fastories in Craries Russia which were much more modern than those in the western democracies, where industrialization had taken place earlier.

Countries which are undeveloped enjoy the Countriés which are undeveloped enloy the advantage of being able to equil betweeners with the most modern plants and methods, and heing free of the burden of continued operation of factories whose machinery and methods have been out-moded by now developments. In this this under-developed lands, might be able to leap-free past more highly developed lands. In practice this rarely, if ever, hispens, because the advantage the emerging nations onloy in quality of newly-

the emerging nations enjoy in quality of newly-installed equipment is more than offset by the lack of quantity.

At the same time, it is well for us to remind

At the same time, it is well for us to remind ourselves, every now and again, that because a country is under-developed it does not neces-sarily mean that those goods which it does pro-duce are turned out by inefficient methods, depending on cheap and abundant labor.

me cases, this is just not so,

To Your Good Health

#### Keeping Busy, Interested Is Key to Mental Health

"I would like to use your columns to make known a blem with which the Belleville Minor Softball Asso-ion is confronted with every year.

"Balls, bats, masks, behaves, bases are given out to the coaches of our many teams and when the sossess ends many of these men forget to turn in their equipment.

heir equipment.

"In an effort to forestall this situation this year,
Belleville Minor Softball Association named an equipmt chairman in the person of Jim Taylor, 263 Foster
snoe.

"The Softball Association is trying to prepare a get for presentation to the Minor Sports Association ual meeting coming soon and an inventory of the ipment is necessary to make this possible.

"flay I also take this opportunity to say that every year it is an extremely difficult position to grie enough coaches and umpires for minor oothsall games. I personally have attended games where the only adults present were the two coaches. A game cannot file propriy conducted under these conditions.

"I extend an invitation to all those people who y wish to coach, umpire or just help out in some or way to come to our next general meeting, eduled for the Recreation Centre, Sunday, March

Gordon Hutchinson,
President,
Relieville Minor Softhall Association

"The games were played in a skating arena called the Palace de Giace. It was seven-man hocker and the ice surface only 79 feet in width. Ten times as many people were turned away as gained admit-

Hockey was officially placed on the Oly program in 1924 when the Terente Granites a 110 goals in five games at Chamenix, France.

The Canadians were extramely popular in those days ectators used every artifice to get pas the gates at the ment of the strength of the strength of the stop parmitted to carry their sticks or skates, posing

Billy Hewitt, a Toronto sports editor and manager-the Canadians team, said that one player was es-ted by three top-hatted men each carrying a piece equipment. One was said to be a dute,

## Spending Estimates Up 8.7 Per Cent

## Money Budgeted Gordon Going Into Four Given Main Streams

#### Programs Bound to Be Renewed Not Listed

By JAMES NELSON

OTTAWA (CP) — How high the record federal spending program for 1965-86 will ultimately go depending program for 1965-86 will ultimately go depends on the extent to which the government will should discussed a bill covering

penas on the execut to which the government was more into costly new projects. At \$8,304,727,432, it already is 8.7-per-cent larger than the initial spending program for 1964-65 an-nounced one year 20, 97,855,000,000. But the full for the fiscal year now ending has grown to \$8,052,257,-

The basic program for the new fiscal year starting April 1 already is 3.1 per cent higher than that.

spril is already is 3.1 per cent higher than that.

And with widespeed assectative were higher than the second of the second of

## Estimates Highlights

efence expenditures up to \$1,550,000,000, an in-of \$25,000,000 over the current years.

CBC operating grant up to \$97,044,000 from \$85,900

Federal share of hospital insurance up to \$484,000,000

Family and youth allowances up \$53,500,000 to \$539,500,000.

Public debt charges up \$63,163,400 to \$1,101,056,400.

GOVERNMENT SPENDING TO INCREASE -GOVERNMENT SPENDING TO INCREADS:

Finance Minister Waller Gordon indicated a record high spending bill when he tabled the government's sestimates in the Commons Monday. The program totals \$3,304,727,432 an Increase of \$7. per cent for the 1965-86 program. Included in the program is \$905,000,000 for \$75 monthly old age pensions. Graphs aboves how the remgining \$7.39,927,7432 is "Driven Traylor of the Program is \$100,000,000 for \$75 monthly old age pensions. Graphs aboves how the remgining \$7.39,927,7432 is "Driven Traylor of the Program is \$100,000 for \$100,0 shows how the remaining \$7,399,727,432 is broken down, a dollar basis, between government depart

Parks Rates Increased

The Ontario Department of Lands and Forests has announced an increase in the rates which will be charged campers in provincial

paris.

The old rate of \$1 a night will be increased to \$1.50 and the weekly rate will be \$3. Day use of the parks will cost campers \$1 a day. The annual park entrance fee of \$5 is to remain the paris will cost campers.

No reasonable person will object to these increases if they are necessary, to meet the cost of operation of these camps, and they probably

are At the same time, we hope they are not arbitrary increases made in an effort to appears the operation of private camping grounds, who have complained that the provincial parks were providing unfart competition and were making it impossible for them to make a living.

the Dutch couple from clitzenship on the grounds of religion, or rather lack of it, is clearly in conflict with the intentions of the Canadian Bill of Rights, which guarantees freedom of religion. Of the Rights which guarantees freedom of religion, that the Bill of Rights does not affect the Cities senship Act because the Bill of Rights was passed after the Citienship Act. We should have thought, as a matter of common sense and fre-quent procedure, the reverse would have been true and the latter legislation would have taken precedence. That not being so, it behoves formly with the more recent excression of the mity with the more recent expression of the

IEE. AUSTIN AUARN.

DEAM MIRA. AUSTIN — I spologies for using its sig-nature which revealed your locative, I had the strong fielding that you wand me to part it. Went to see the second with withhold the name of the city or state I always may be you may be plessed to know that arways humders you may be plessed to know that arways humders people wave in to take your side. They said you did not come may be always at all — that it seemed clear your mader occours was protection of the feelings of the adopted state.

Basic recomm was protestion of the feelings of the adopted gis. Size you seemed, latter finally makes your material gis. Size you seemed, latter finally makes your material clear to me I have a different word of advice to other. For your size that you would like here to treat your clifform equally, and that if she does not wish to leave your can applicate as a their-times she should not large your one applicate and their times she should not have your one applicate and their latter to the should not should be a finally for its months and I was some bloods me as mostly in found as allowed makes and I was some bloods make a finally for its months and I was some bloods make a finally for its months and I was some bloods make a finally finally for the state of the s

DEAR NOT PEACHY — Someone should produce a dic-tionary and define the real meaning of certain pierases, For example: When a failer way. "I think you should go with other follows to see if you are as mady in low with me as you think," he mean: "I would like no pow with charge in-because I'm not sure about my feelings for you." Don't fight it, I your remanes earl reads the test, be thanked you issues the test of the control of the con-trol of the control of the control of the con-trol of the control of the control of the con-trol of the control of the control of the con-trol of the con

DEAR ANY ANAPORES — Ny problem is minor compared to the heart-levekers that others write to you shoul, but it is a continuing source of irrisation.

I live is an apertment house, During the winfer my next correlation of the problem is minor to the problem of the consideration of th

DEAR SYRACUSE — The corridors of an apartment building belong to all the tenants. One family should not be permitted to spoil the appearance of the corridor for the others. Try your complaint out on the manager of the building. It's his responsibility.

Ann Landers will be glad to help you with your proble and them to her in care of this newspaper enclosing a stamp

BELLEVILLE SHOPPING PLAZA

# PORT

By Geo. H. Carver Sports Editor

To the accompaniment of frug, waters, monkey, ily-gully and other horrendoes music, the Eggheed go with his bleempy blast at Bobby Hull. "Big that hie—who couldn't make a midget club—hic-over-rated-hic-big flop in the second half-hic—a pleny with numeles and horse-shees-hic—the Point Anne boy wonder-hic.

"Who's speaking, please?"

"Hic--a guy who knows more about hockey than ou or Hell-ble-ever thought about-ble." Click. That as it. His receiver clicked a split second before

Shucks, Egghead, you get Bobby Hall all wrong, Don't you know when you're being kidded? The sports writers, coaches and sandry heckey expen-lare been pulling your let. I'll be! if they knew what you think of Hall they would have you arrested for exposing their moden operandl, (You'd beletz look

All those newspaper, magazine and at Bobby are just part of a big gag.

They know he is just a great hig home hoy who could rather be on the farm nursing cattle than lasting pucks at hockey goalkeepers.

Why, the very idea. Bobby would no more the of utuning individual trophies and beguess than y do of going to the moon.

And that stuff you reed about the power of his about 120 miles per beur. Shacks, Egghead, you fall for that stuff? Why Hull couldn't hill a mosquite at a range of four feet.

And all that messey he's making? Why if the truth was known Hall works for \$1.20 per hour with no overtime. Surely you didn't fall for that guff about the themsade he makes in salary and the extra grands he totoe home as beauses? How silly can you

These injured knees? I thought your one brain was hig enough to tell you that Hull is pulling a let of legs. The story gees he has been appreached by movin people to appear in a film. The injured knees exper is merely to test his acting. And you must adult he is doing very well.

And I'll let you in on a serret. You've seen those more shots of Hall rearing down the ice with hildering speed and firing the peal. Don't date tell a soil. The gry you see is, as they say in the movies, a stand-ing you have been a peal to do stants. You know peal peal to do stants. You know peal to the standard of the peal to the stants. You know peal could not yet only not even with attached outboards. I'm surprised at you.

I can tell you've been around a lot, especially the bers and I'm surprised that a guy of your I.Q. hasn't real-ized long before this that sportswriters have been "potting on an act."

I'll bet you surprised the teacher with your mental brilliancy before you got the heave-ho from grade four. And at that I'll bet you wound up in that part of the class that had the most cavities. One was a big hole in the head.

## Brawlers With It

after 5:11 minutes of play.

He said no fines or suspensions were levied by Lockhart.

Rashville and Knozville each has won one game in the bestof-seven series for the southern livision title.

The next game is at Knozville Wednesday slight. Got Away SWEET TOOTH

NASHVILE, Tenn. (AP)— Tom Lockhart, Eastern Hocksy Lazgue president, said Monday that Knoxville Knights may use aither Garry Sharp or Don Car-ter for their playoffs with Nash-wille, but not both. Moscow's factories turn ou 864 tons of candy and sweet pas tries every day.

#### Two District Playgrounds

Two recreational areas of particular interest dents of this district were mentioned in te in the Ontario Legislature last week. They were the Sand Banks and Algonquin Park A University of Toronto professor objected to plans to build a road from Wellington along the Sand Banks. A Liberal MLA, Leo Troy of sing, complained because greater use is not made of Algonquin Park.

The Government was thus being criticized for plans to develop one area and for failing open up another.

The Government would appear to be in the unhappy position of being damned if it does and damned if it does not.

Actually, the two situations are entirely different and different policies can thus h defended. We happen to believe, though, that the differing policies advocated by the Government's critics are precisely the reverse of those for which the differing situations call.

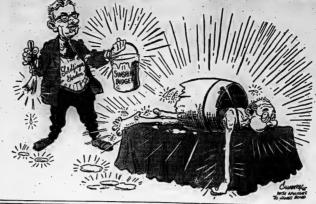

Professor Douglas Pimlott told the legislature's committee on natural resources, wildlife and mining that the building of paved roads, parking lots and lookout points would prevent the sand blowing at the Sand Banks, thereby, of course, depriving that area of its interesting characteristics.

If. Prof. Pimlott had said that such pro jects "could," rather than "would," prevent sand blowing, we think he would have been correct. However, if the program is properly undertaken, we think the deplorable, results which Prof Pimlott forecasts can be avoided. There is an Primote forecasts can be avoided. There is an area at the south end of the strip, where the peninsula between West Lake and Lake Ontario widens out, which would permit ample parking space without reducing drifting, since it is already hard-packed. The templation to build state the strip with the strip wit area at the south end of the strip, where the

eary and with the increased interest in boasting such a policy means little more than favoring boat-owners, or those who are well able to afford the coat of nitring a boat. The Sand Banks would sarely be protected from use by the public, or the coat of nitring a boat. The Sand Banks would sarely be protected from use by the public, or the coat of the coat at a coat of the coat of the coat of the coat of the start of the coat of the coat of the coat of the is surrounded by similar territory, much of which is well crease-crossed by roads and subject to com-

as surrounded by similar territory, much of which is well criss-crossed by roads and subject to com-mercial development. We owe it to future generations to preserve, some wilderness areas. The Park was established with this in mind and we see no good reason why this wise policy should be changed. If cance trips do not mix well with tourists, as Premier John Robarts went with courses, as Fremier John Robarts, observed, then let these tourists go elsewhere. Their needs are well met by other provincial parks, including the proposed development of the Sand Banks.

Ideas affect our outlook when they are concerned with concepts which are prominent in everyday life; Darwin was thought to be dealing with man's soul, which played an important part in thinking in the 16th century. The basic change which Einstein made was in a more ab-stract concept; that of time. Time has always fascinated man, but it is peculiar among every-day concepts in playing an equally fundamental role in science, where we are concerned with how things change—change in position, in growing up, in being transformed from one substance to another. All change takes place in time, and so time is as important to the scientist as it is to the poet.—C. W. Kilminster, King's College, Lon-

## "Why should you switch to Food City?"

PRICE HAS A LOT TO DO WITH IT. Our policy is to have the lowest food prices in town every day and Monday thru Saturday and week after week. Take a close look at the grocery prices below. Those discount prices are the same every day of the week. They are our regular shelf prices  $\wp_{ij}$  (and they're only a small sample of the total number.) The range of savings shown are fact and not poetry because we constantly "comparison shop" the major chain stores. We don't stint on quality. You'll find all the top brands at Food City But there's nothing like a visit to really convince you.

### **Russian Corpse** Circling The Earth?

Two Italian brothers and their sister, who is fluent in Russian, have radio tapes indicating that more than one Soviet astronaut has died a lonely death, victimized by laulty specded-up space technology! Read in April Reader's Digest this fascinating story—"Italy's Amazing Amateur Space Watchers",

'I miss you, too, Grandma."

(But there's always Long Distance, the next best thing to being there.

THE ONTARIO-INTELLIGENCER, Wed

Sports Editor Red Sullivan, Peterborough's gift to the National Hockey League and guiding light of the absoran New York Enagers, is the latest addition to the Ancient and Honorable Order of Hockey Crystal-Ball Genera.

Red's deput in the ranks of the Swinging Swamis was a startling coe, in some quarters. After his breathless quotation, Red would give Whipper Billy Watson a terrifier run for that political seat in Tayrawuta if he cared to anter.

The faithful of the Maple Leafs, from Yongo Street, all points, wend rally behind the Sullivan hanner for Red has called the Carieton-Callegians to sweep saide the playefts opposition and put the Prince of Wales Trophy on a Minday York muntel.

In his apparent one-swallow-makes-a-spring pre-diction, the sorrel-top says he believes the Leafs will whip the Canadiens should they meet in the semi-finals. That wish you hear is Toe Blake tossing his mane down Montreal way.

Sullivan also called Toronto to meet and beat Chi ck Hawks in the finals series, "The Hawks have b many key games on their own ice this year" he op

Now I wonder whatever became of that club called the Detroit Red Wings? Red does not give them a mention in his crystal ball revelations.

Or does be believe the Punch Im'th collision of diction that Detroit would not be in the playoffs with "midget goalkeeper."?

Sullivan's choice of the Leafs to whip both Canadien nd Black Hawks in the series indicates his b the Wings will be one of the semi-finals victims

Come, come, Red, surely you're not passing up that strange mixture of old men and kids who have graduated from their heckey disper age, who have carried the Detwil banner to the top of the heap — and likely keep it there?

A cinh with some Rhy Van Winkies pacing the pack and a hockey Methusaleh guiding the youngsters up the path of glory should have some sort of rec-ognition. Besides they have a coach who is very much in line for the "Coach of the Year" sitle.

### Why This Terror of Gas?

Non-lethal gas is being tested in the war

against the viet cong.

"Even if it does work over here," says an American official in South Viet Nam, "there are real problems of getting it accepted. The difficulty is getting the American public used to the

There is little doubt that he is correct, but It is difficult to advance any logical explanation of why this should be so. It is true that some games cause their victims much anguish before they die, or lasting complications and ill health if they should recover. But this is not true of all gases, and even the worst of them can hardly infield preater suffering than mapaim, the jelly-infield preater suffering than mapaim, the jelly-infield preater suffering than mapaim, the jelly-infield preater suffering than more infinitely infield preater suffering than the use of which is now motion wherever the Americans engage in war.

When it his horror of sea confined to the cult to advance any logical explanation

Nor is this horror of gas confined to the people of the United States, by any means. It is certainly shared by Canadians and, we think, by most others in the English-speaking world. Does it perhaps date back to the shock and horror of British and Canadian troops when they first faced the use of gas in battle, during the First Great War? The logical Germans do not seem to have considered it any more than a new, and they hoped a more efficient, weapon. They found it unreliable.

Between the wars, many horror stories were written about the development of new gases and the picture painted of their effect in a new major written about the picture painted of their effect in a new major conflict was only slightly less harrowing than that now presented to us of the effects of a nuclear war. In the event, none of the powers resorted to gas, partly, one suspects, from fear of reprisals, partly because the results were un-predictable.

The old horror of gas warfare remains. The fact that some gases do not kill, but merely incapacitate for a brief period, does little to re-duce the distaste with which this form of war is viewed by most people. Indeed, in some strange manner the fact that victims of the gas inge manner the fact that victims of the gas over from their helplessness, presumably to recover from their helplessness, presumably to find themselves captives, seems to enhance, rather than reduce, the revulsion some feel. Yet, from the standpoint of logic, the use of such gases is not only justifiable but offers us by

far the most humane method of waging war.

### East-West Understanding

Canadian-born economist John Galbraith may be laboring only the obvious when he says that it has become evident that the peace of the world depends, of all things, on a measure of understanding between the United States and the

In a speech to the California Democratic Council, Galbraith said that such an understand-ing "is not the fruit of charity, soft-heartedness or goodness of soul — but a product of an ele-mentary interest in self-preservation."

We are not suggesting that the West allow itself to be lured into a false sense of complac-ency so far as the Soviet Union is concerned.

The Soviets are still working hard toward the establishment of world communism—not by violence or by military adventures, but by infiliration, subversion, ideological warfare. tration, subversion, ideological warfare and the support of the communist movement in other

The Soviets do realize—as does the West— truth of former prime minister Harold Macmillan's classic statement that "war, happily, has become too dangerous."

Macmillan, of course, was referring to all-out

nuclear war. Brush-fire wars such as the one now raging in Viet Nam are still part and parcel the great communist conspiracy.

All this spart, the Soviets are as anxious to avoid a serious confrontation with the West as we are. They realize, as does the West, that China is the big danger today, that China is the country that stands to suffer least from nuclear country that stands to suffer least from nuclear war because of its huge population and disregard for human life.

Twenty years have elapsed since the end of the last war and the validity of Macmillan's statement has been proved on numerous occas-ions during that period. Our relations with the Soviet Union, while still imperfect, have improved greatly. Both sides stand to gain from an even greater degree of understanding.

We do not wish to impose a particular form of government on any peoples in the world. We merely say: "This is what we do. We know it's not perfect, but it is the best system that we have been able to create after many centuries of trial and error."—Queen Klizabeth II.

That's nothing new-we've been floating along at the end of our rope for years

### To Your Good Health

### Recognizing Danger Signs In Emotional Problems

By JOSEPH G. MOLNER, M.D.

(Address your requests to I Molner in care of the Chica Sun-Times Syndicate, P. O. B 158, Dundee, Ill.)

Letter to the

Editor

us.
Surely this is a case of the old maxim "Those whom the Gods would destroy they first make mad."

Yours very truly,

Yours very truly, Kenneth G. M. Re

This is the north a serier. It is that to be received by a doctor of articles.)

THE SHRINE TOURNAMENT

On April 3rd eight of the best poewse hockey teams in this part of Ontario will donate and dedicate their efforts to the betterment of the less fortunate youngsters of the city and district.

From Belleville, Bowmanville, Kingston, Oshawa, indaxy, Ajax, Gananoque and Peterborough come these oung stalwarts of the ice lanes to joust in tournament attle in Memorial Arena.

Under the sponsorship of the Belleville Shrine Clab these healthy young gladiators will vie for championship honors and trophles and individual awards.

The youthful champions of the cournament will re-teive the Harry Rollins Trophy. The runners-up will be presented with the Shrine Trophy.

But the biggest presentation of all will be the entire proceeds of the tournament which will go to the exchequer of the Shrine Club Crippled Children

And alding and abetting the youngsters will be e climactic "battle" between the Believille Minor bekey Association Coaches and the Canadian Na-mal Enilway Oldtimers team.

These are the men and boys who in their younger ys played "cops and robbers" and "Indians and Sol-ers" while their handicapped counterparts watched tifully and sometimes with envy from the sidelines.

Their red-fezzed sponsors are little boys grown tall who play Moslems and infidels with reverent minds and merry hearts but with all their fun have not forgotien charity. They are dedicated men actively working at and contributing to the welfare of those

Not too long ago over 800,000 Shriners in the United States and Canada voted unanimously to con-struct and maintain four Shrine Burn Institutes at a cost of ten million dollars.

The institutes will provide care and treatment for curable crippled children afflicted with acutely dangerous burns and for research and training pro-grams related thereto.

This in addition to the splendid work being done the crippled kiddles in the thousands of Shrine areas.

Here in Belleville, the Shrine Clob has been doing a magnificent job far its kiddle proteges since the day the late Noble D. L. Storey opened the first Barine Clab on Campbell Street.

Each year Shriners devote their time, efforts and money to the betterment of these youngsters. They take off their costs, roll up their sleeves and in close co-operative efforts go about the task of raising funds for their project.

For many years their main winter funds-valsing effort was the Police-Firemen blockey game. This year with the allout cooperation of the Belleville Minor Hockey Association, the CNR - Coaches, The BMHA Women's Association, the CNR - Coaches, The BMHA Women's Association and the many individuals, the Shriners are appointed in the previous terms are appointed in the previous terms are possering the previous terms.

It is expected that some celebrities will be here. A well-known former NHL referee has been invited as has one or more NHL stars. Ontario Minor Hockey Association president Absert Watkins of Peterborough and first-vice president Doug. Patterson of Stirling

The minor tournament will be an all-day affair end-ing with championship games in the early evening. The CNR - BMHA Coaches game winds up the hockey fes-tivities.

The tickels are on sale now, You can procure them from the CNR hoys and the BMHA-fellows as well as at Tom Levil Tobacco Sore on Front street.

If you go to the tournament or not. Your money will be a child along the road to be letterment or recovery, he is an investment in the health of the less fertunate children of the district.

# NOTICE TO THE PUBLIC

From the Belleville Fire & Casualty Insurance Agents' Association.

# **INVESTIGATORS**

We are advised from many of our automobile insurance policyholders that persons have been calling at their homes and attempting to ob-tain personal and private information. The Belleville Agents' Associa-tion wish to advise the following:

(1) These Investigators are not representing the Agent-

(2) You do not have to talk to them or give any information about your-self, your family or your neighbours.

(3) Their name and address should be obtained and their credentials.

# CAR INSURANCE SURVEYS

We have recently been advised that many homes have received phone calls under the pretence of a car insurance survey.

(a) We understand this is not a survey but only a car insurance com-pany trying to obtain personal and confidential information about your auto policy.

(b) You are not under any obligation to give any information to this person.

IT IS OUR SUGGESTION THAT YOU REFUSE TO TALK TO THESE PEOPLE AND THEY WILL SOON DISCOVER THAT THESE METHODS OF INVESTIGATING AND SOLICITING ARE OF LITTLE VALUE.

# An Unsmiling People

In a book published some years ago called The Case of Being A Young Man," writer Peter Ople said something like this: "I wish the men and women of our civilization would smile at each other and he able to do so without necessarily obligating themselves in any way."

We were reminded of this while reading a column by Toronto columnist Richard J. Need-He was talking about wealth and poverty and made this observation: "Isn't it generally true in this world that you find more happiness and tolerance among people who have less m and less happiness and tolerance among people who have more money.

"lan't it generally true that rich countries like Canada, the United States and Sweden are sad; and that to find laughter, you must visit the poorer ones?

"The people of Asia," he went on, "have little. "The people of Asia," he went on, "have little, to be sure, and often are hunger, but they have to be sure, and often are hunger, but they have a great zest for life. Pearl Buck, who knows them so well, asys of them: The people who make up Asia, and therefore most of the world make up Asia, and therefore most of the world make the people of the peopl they are a great people'."

Then, turning to home, Needham reflects:
"How ready the laughter of Canadians? How eager their speech? How strong their vitality, as they seek—above all else—to be 'secure'?
Would anybody call us a great people?"

He quotes Canadian author Bruce Hutchison. Questioning President Johnson's idea that more wealth will make the people of the world happier, Hutchison said:

Hulchison said:
"You will see more signs of happiness in a
European village or in the shouting alums of
Tokyo than on Wall Street, where the world's
wealth is concentrated, or Fifth Armus, where it
is spent. Frequently I have walked down
Wall Street and asidom seen a smile, but every
Alpine inn, every mean Paris case or London
pub is filled with laughter."

"We Canadians," Needham concludes, "are verp strong (the Americans even more so) about treating people in Asia, Africa, and Latin America as 'problems.' But an Asian, African, or Latin American, collision of the control of the cont as problems. But an Assan, African, or Laun American visiting Toronto and New York might be immensely depressed by the sautness, the sil-ence of the people, the lack of laughter and song. He might-decide North America—not Africa or Asia or Latin America—is the problem. He Asia or Latin America—nor Ainca or Asia or Latin America—is the problem. He might decide it is the biggest problem in the world. He might be right."

To which there is little more to add.

# Great Lakes Scheme

A Sudbury engineer, Thomas Kierans, has posed a multi-million dollar scheme to reproposed a multi-million plenish the Great Lakes.

The plan, which has won the attention of the Ontario government, suggests diversion of the Hurricanaw river into the Great Lakes water-shed instead of into the Arctic watershed.

shed instead of into the Artic watershed.

Prime Minister Roburts said last week that

Mr. Rierans would be given a legislature hearing.

The plan, in its concept, seems to have a

the elements of simplicity. In practice it is likely to

be otherwise. But Canada has plently

experience in harmessing the forces of nature.

Plant I surveyors Seamy to a clauser example and experience in harnessing the forces of nature. The St. Lawrence Seaway is a classic example and there is no reason why an attempt should not be made along whatever lines Mr. Klerans has

Whether or not his plan is practical should readily apparent when Mr. Kierans outlines

One thing is certain, something must be ne to prevent wide fluctuations in the levels done to prevent wide fluctuations in the levels of the lakes. The entire Seaway system, from the lakes to the St. Lawrence is affected. The level of the St. Lawrence is the lowest in many year. In places the river banks are mere mud-flats and boat docks are dry. Seaway revenues are on a downward spiral and this is one good reason why Mr. Kleran's plan is worthy of study.

Most animals are pretty beastly to their sick or injured relations, but I have known elephants who have come to the rescue of a sick animal to the extent of supporting it on either side and trying to convoy it to safety. As for mother and baby, nothing could be more touching. No human mother could fuss more over her child. -Alan C. Jenkins.

"How'd THAT thing get in here?!"

The Common of t chevelle'65

# Is Chevelle by Chevrolet a big small car or a small big car?

# Yes!

Sorry we can't be more definite, but you see, Chevelle's size is relative. If you're used to driving a "big big" car, you'll be smitten by Chevelle's convenient 115-inch wheelbase, by the easy way it slips between parking meters, by its nimble manners in heavy traffic and by its readiness to fit into your garage. On the other hand, if you've been confined to a "small small" car, you'll love Chevelle's choice of five convenient body styles,

13 beautiful models and 12 responsive power teams; you'll glory in Chevelle's wide-shouldered family-sized interiors, its huge trunk and the downright luxury of its Full Coil suspension ride.

Actually, there's really only one way to answer the question of Chevelle's size. Try one on at your local Chevrolet dealer's. We're sure you'll find a Chevelle that fits you and your budget just beautifully.

CHICAGO — A. V. Johnson, discovered the control of the properties of the first and the properties of the control of the properties of the control of the properties of

By Geo. H. Carver Sports Editor

National Hockey League and Stanley Cup-wise this is the time of the year known to puck buffs as the "Great Argument Era."

Over the sads schupers, coffee cups, the tall enos, the short sace, in the pibe, lossages, druring resust, and wherever the picture tale is the centre of al-traction, as well as wherever two er saces are gather-oid together, the arguments will crop up.

The average sports fan, unless he is a dyed-in-the-d details addict, has a short memory. Beyond five is he has to do some brain-wracking.

Already this department has had several he ries about the past deeds of National Hockey gue champions and also-rans. The official record is has more degents than an organized for hunt.

.So here are some facts that can win or lose wagers act from the records tome.

Montreal Canadiens and Toronto Maple Leafs top the Stanley Cup winners with ten each. Detroit has won it seven times, Boston, New York and Chicago three times.

The Leafs top the field with the most final series earances with 18. Detroit is pext with 17, then the adlens with 15. The Habs have been in the playoffs 35\_times, Toronto 31 and Detroit 30.

The Canadiens top the list with five consecutive up wint, and also the most connecutive appearances the finals (10). Deirott holds the record for the out connecutive appearances in the playeffs with 28,

The Canadiers have won the league championship Prince of Wales trophy) no less than 14 times, put-ing together strings of five in a row from 1856-57 o 1961-62 and four from 1943-44 to 1946-47.

Toronto has won the league gonfalon nine tin puniting two by the St. Patricks and Arenas clu-etroit copped it twelve times with an all-time reco seven in a row from 1948-49 to 1954-55.

Boston has won it six times, strangely enough, in ngs of three, the first from 1938-39 to 1940-41 and in 1923-29 to 1930-31. New York has three league

Getting down to individuals, Gordie Howe holds e record for Stanley Cup playoffs point with 140 goals, 83 assists in 131 gamen.)

Rocket Richard holds the goals scored mark with 82, but is second in points with 44 satisfs for 126 is. 133 games. Third is Bernier Goodfrien with 115 points. Rounding out the hig ten, follow Dickle Moore 91; Ted Linday 93; Jean Bellvans 91; Alex Bellvans 91; Alex Bellvans 91; Alex

Here are some records picked willy-nilly.

The most goals in one playoffs game were scored by Frank McGee of the Ottawa Silter Seven, who rated up 14 in his team's 23-2 win over Dawson City. Montreal Marroom's goalle Clini Benedict had three shuteuts in a four-game series with the Victoria

Gordie Howe and Red Kelly have played in 15 Stanley Cup strics. Ted Lindsay played in 13 con-secutive series. Kelly with 142; Rocket Richard 13a and Gordie Howe 131 top the most playeff games list

The biggest staner in cap playoffs is the Rocket with 183 minutes. Then comes House with 184 and Eddie Shore with 177. The Leaf's Turk Broch solids the series shutout recend with 13 followed by Lerry Sawchuk with 12 and Jacques Plante with 18. The Tpurk has played in the most games 181.

A cup oddity perhaps is the fact that the second and third highest goal scorers have not scored an overtime goal. Howe has 57 goals and Bernie Gool-frino 56, all scared in regulation time. The Rocket, however, counted six overtime goals in his 52 record.

Delvecchio Scores 3 \* \*

# Wrap It Up, Beat Blues 7-4 Vings

but also nave a pair or conceivably cloud to face.

The Habs could conceivably equal Detroit's point total by winning both their games provided the Detroit inhi dropped both decisions in a home-and-home weekend series with Toronto Maple Leafs.

However, if this happened,

Chicago Black Hawas and the Leafs remain anchored in third and fourth playoff spots re-spectively. Ramaining league action cannot alter that finish

# Our "New Look"

What's good for General Motors is not necessary good for the United States, as one high Washington official found out to his sorrow. It follows that it is not safe to say that what's is follows that it is not act to any that what's good for the CNR is necessirily good for relie-fulle. It would, however, be even further from the truth to suggest that Belleville has no vested interest in the welfare of the CNR. It follows that what has abspecant to the CNR in the past four years gives Belleville residents good reason for rejoicing, expecially since the alteration in the public image of Canada's nationally-owned railroad has been made particularly plain here. Altitle over half a decade ago Belleville article of the control of the control

what still is the world's most effective method of

But when, in 1961, the old divisional points were eliminated, we found ourselves assuming the more important role of the headquarters of an area in one of the new regions, of the Rideau

area of the St. Lawrence region, to be specific.

The result has been that the physical property of the CNR here has been given a face-lifting. But, more important to the CNR and potentially also to Belleville, is the change which has taken place in the relationship between the CNR and the public it serves. The "get-ac-quainted" receptions which the CNR is sponsorquameter receptions which the Crit is sponsoring here this week; with customers and potential
customers, are graphic examples of this new
attitude. So, too, is the railroad's drive to
emocurage passenger travel, at a time when many
other railroads are meekly surrendering to the petition provided by highway and air travel.

As we said, not everything which is good for

CNR is necessarily good for Belleville. But we cannot think of anything which has happened to the CNB since its 1961 re-organization which does not augur well for the role it will play in Belleville's future.

## Education and Sport

Syl Apps, MLA for Kingston and former Toronto Maple Leafs hockey player, told Belle-ville Rotarians Monday that there is a great lack of leadership in young people's services today, as well as a lack of leaders with proper qualifications.

He said this lack of trained leadership is all the more noticeable in the modern world with

The basic problems of youth today are no erent to those of former generations. Young different to the people today are under more pressures perhaps, due to a loosening of moral standards—pressures to stray from the straight and narrow. Never-theless, the moral code is the same as it has always been.
Problems of another stamp face the modern

teen-ager, however. Educationally, he faces the challenge of technology and the demands of a competitive age requiring the highest qualifica-

competute age requiring the ingrest qualifica-tions. Overhanging everything is the spectre of automation. It is the survival of the fittest. In these circumstances there is every en-couragement to the young person to work hard, to seek the highest standard of education he can possibly acquire. But for every one who does make the grade there will be many more who won't succeed

Dropouts are likely to increase rather than diminish and there is the prospect of a host of young people with nothing to do, and unwanted time on their hands.

Fortunately, there are many positions in the technical field stemming directly from the rise of automation. Computer programming

Again, despite the competitiveness of the age Again, despite the competitiveness of the age young people will need respite from study and the quest for knowledge. Mr. Apps spoke of the work of the Ontario government select com-mittee on youth with emphasis on education, cultural activities, recreation and sports. This country still has a long way to go before it achieves the mass interest in sport of

countries like Australia and New Zealand where sports training begins early, continues the year round, and where there is no lack of qualified

rams conducted in these countries and in Scandinavia (where calisthenics is a useful adjunct to sports activities) are well worthy of study in moving toward a healthler, more sports-conscious Canada—a country where young people become aware of the fact that the automobile, for instance, is not the only outlet for youthful energies,

"See-just a little old bunch of non-toxic gasses

By Geo. H. Carver Sports Editor

The "two-storey" asset of the House of Seagram

But ask who "Red Storey Is and six National ckey League teams will prick their ears; thousands football buffs will salute; referee-in-chief Carl Voxs I say nothing and NHL prexy Clarence Campbell I stare and maintain a stoney silence.

"Red" has a psychological slant life that has stood him in good ad. He believes in doing what one alse is right whether at work or at

Red Slorey may not be a perfectionist, But he comes surful close, I do not believe that he wants is be a pedestilled statue to commemorate professional activities. Rather, I think. Red would want to leave his boost unstained, let his record stand, and booth jis levelhe swathheating way of helping others.

Red did not hesitate when asked by Seagrams may Emission to officiate at the Shriners Peewce ranment here on Saturday, April 3rd,

I don't think Red likes hero worship. By that I an that the eight peewee teams will be put at their e by the ole cotton-top before the games start.

And saide to the youngsters; Listen fellows, this big buy doesn't fool. When he's out there tooting that whistle he's just another referee. That's the way Red plays it.

One of his favorite and best anecdotes is that of an occurrence that took place in the Montreal Forum while he was officiating at a Canadiens-Leafs game some

A Monireal fan objecting to one of Red's calls hurled a bag of peas on the ice. The Habs coach came out to talk with Red while the peas were being taken

Fingers wagged under noses and the hometown faithful got a huge kick out of the seeming "bawling out" Red was being given.

A lot of his friends here will enjoy meeting the Ole Rechead again. And Shrine president Alex Pierson and his fenced men are deeply grateful to the House of Seagram, Shriner Jimmy 15/r=1500 and to Mr. Slovey for their generous assistance in helping to raise money for the crippled kiddles of the district.

#### Let's Not Get Hysterical

The denial of Canadian citizenship to a Dutch couple because of their religious beliefs ther their lack of any such beliefs—has a torrent of protests.

As we have already stated, we think that the Citizenship Act should be amended to prevent a recurrence of such incidents.

But some of the protests are ridiculous. There is, for instance, the assertion that the ruling makes a farce of religious freedom in

It does nothing of the kind,

It does nothing of the kind.
Canadians are free to practise most religions.
Complete religious freedom is an impossibility
people cannot, for example, be permitted to
practise a religion whigh believes in human secstrices. Precisely the same religious freedom
which Canadians enjoy is extended to non-Canadians redding in Canada.

Other people argue that a government which can deny Canadian citizenship to immigrants because of their religion, or lack of it, can also strip Canadians of their citizenship for the same reasons. Of course it can; the government can make Canada a slave state if it wishes to do so and if Canadians will put up with such treaternment is likely to attempt to do such a thing.

Immigrants are denied citizenship for a variety of reasons which would not result in Canadians losing their citizenship. A country has a right to choose the people it will admit to eftizenship. The question is not whether any of our precious freedoms are imperilled by the nial of citizenship to a couple of Dutch unbe-vers. It is merely whether it is expedient to act such a barrier against their acceptance into the Canadian family. We happen to believe that it is not expedient and it is quite evident that many Canadians share this opinion. But there is no need to get hysterical about the situation. It is not, as one letter-writer sugts, "the first big step towards the gas ovens. gests, "the first big step towards the gas ovens."
Far from indicating any growth in bigotry, the
reverse is true. A few decades ago the ruling
against the Dutch couple would have been accepted with hardly a voice raised in protest.

#### Sudden Wealth

Three young Englishmen have just walked off with history's biggest soccer pool payoff—

Geoffrey Liddiard, 31, who paints the dials on the thermometers his company manufactures in London, engineered the big financial blast by correctly forecasting eight of nine tied profes-

He is sharing his winnings with two col-leagues, George Larchet, 39, and Britan Bolford, 21. All three were pictured looking understand-ship happy with their winnings. Liddiard is a married man who, two young sons, Bolford and low planning to marry earlier than he had anated and Larchet hopes to visit his brother

In other words they have positive ideas on how to use the money. What concerns us most, however, on these occasions when people of lim-ited income suddenly acquire great wealth, is the very enormity of the change that takes

e in their lives. Life for these three young men henceforth Lite for these times young men nemerous will never be the same as before. They may continue in their present jobs, for the simple reason that most people find it essential to their peace of mind and happiness. Yet the pitfalls ahead are likely to be as numerous as craters on

How does a fellow with \$300,000 in the bank get along with a colleague with perhaps not even a \$1,000 to call his own? What of his rela-tives? How will they react? And so we could

The history of people who have won huge The history of people who have won huge sums on the pools (or the Irish sweepstakes) is not a happy one. We hope Messrs, Liddlard, Holford and Larchet don't have to tread as rug-ged a path as some have trod in the past.

To me, the proof of a man's goodness is the To me, the proof of a man's goodness is the effect he has upon others. So long as one was in Ellot's presence, one felt it was impossible to say or do anything base.—W. H. Auden in a tribute to the late T. E. Ellot.

Who is not satisfied with himself will grow; who is not sure of his own correctness will learn many things.-Chinese Proverb.

Spring is around what corner?

DIAL 8-6464

 QUICK — PROMPT — COURTEOUS
 24-HOUR SERVICE FOR YOU AND YOUR PERSONAL NEEDS

London Life repeats the question;

# "If you died tomorrow, would your affairs be in the shape you want them to be in?"

Would your wife know where to find important papers? Would she have an adequate income? Would she know where to turn for advice? If you're not sure, read on. London Life explains the steps you should take:

PERSONNET THE PREST Step is to turn off the tele-vision set for an evening. Sit down with your wife and table—not about a bigger TV set or a new car, but about the future of your family. Talk about your plans for retirement, Have you started a savings fund? What monthly income will you have at age 63?

Talk about your plans for educating the children. Are you setting money aside? Will you have enough?

enough?

Talk about your family's future if you should the.
Do you have enough life insurance? Would your wife have to go out and work?

Try to build a long-range financial plan for your family. If you already have one, analyze it for weak points. Decide how you can correct them,

#### Talk to the specialists

Few men have the time or talent to do their own financial planning. That's why we have specialists—lawrers, life insurance representatives, trust officers, bankers. Seek them out.

cers, loakers: Seek them out.

Talk to a lawyer about wills. You and your wife
should have a will. This guarantees that your
money goes where you want it to go. Your lawyer
can advise you on types of wills and ways of minimizing succession duties.

can advise you us 15000 mixing succession duties.

Your wife should have a will just in case you both die in an accident. Include plans for guardisably of the children and the management of money which they would inherit. Remember—your lawyer is a precialist.

insurance program should give your family a regu-lar income if you die. How much they would need depends on the size of your family, the size of your mortgage (if you have one) and your wife's ability to work.

wife's ability to work.

A good life imazane representative will help you work toot the details. He will recommend a plan tailored to your family's most, (1987): A London Life representative will show you how a Jobble policy that protects your family, will also build a savinger fand for retirement, In left if you bey when you are young, you can deal to help the plant you are young, you can fail to a booker, transfer, transfer, you consequently a life of the plant you are your fail to a booker, transfer, when you are you fail to a booker, transfer, and give not retreatment dealer.

Don't attempt to get rich overnight on the basis of office gossip or "confidential" tips. Talk to a man who knows the investment field. Explain your preent situation and savings objectives. He has the training and experience to give sound advice.

#### Clean out the drawers

When you have taken care of wills, life insurance, investments and so on, put all the important papers where they will be safe and accessible. London Life recommends two places:

(i) Safety deposit box. It should hold your deeds to property, certificates for stocks and bonds, and valuable personal papers.

(2) Private papers box at home. This should hold everything your wife needs in an emergency. For example, all insurance policies should be here. Also your family's wills, back income tax returns, bank

statements, marriage licence and birth certificates.

Write a letter to your wife. Summarize the program yigh have agreed on, the amount of insurance you own, and how you quot life her to carry out the program you have made. Include a record of your assets and liabilities. List the location of your safety deposit box (and its contents) and all bank accounts.

accounts.

List the names, addresses and telephone numbers of your lawyer, life insurance representative and a close friend who would help your wife settle the affairs,

#### Talk to your wife

Spend another quiet evening going over all the steps you have taken. Discuss life insurance. Re-tirement. Investments. Wills. Go over the letter you have written. Be sure you both understand it.

you have written. Be sure you both understand it. You and your wife will feel better when you have ett your affairs in order. The time it takes it a matall investment when you think of the tangled mess you might leave behind.

To learn more about life futurence—and how it can fit into your family's financial planning—write to London Life for a free copy of their new bandbood, PLAIN TAIX ABOUT LIFE INSURANCE, JOHN TAIX ABOUT LIFE INSURANCE.

227 FRONT STREET

#### The only difference between these two cars is 27 years and 2,109 improvements.

Which is why you see so many VWs. And still have trouble telling which model year you're looking at.

When we improve the Volkswagen, we don't fool about with

the style. We work on the works. For good reason. For instance, in 1952, we put yents on the front side windows.

And in 1956; we redesigned the gas tank so you'd have more

luggage space up front.

We made first gear synchromesh in 1961. To let you shift

down from second to first without stopping. (We made a lot of lady drivers happy with that one.)

hat about this year? Well, there are 17 improvements for

Every single window on the 65 VW is just a little bit bigger. The back seat folds down so you can use the entire rear of the car for suitcases and such.

The steering assembly is completely maintenance free. We made our windshield wipers to do a better job.

made our windstitled wipers to accuse the same to you every year, it does change. A fender from that '65 VW will bolt easily cate that 1938 model.

at way, if you drive an old VW and something wears out,

you don't have to worry about getting parts.

And if nothing weers out, you don't have to worry about the shape you're in.

By Geo. H. Carver Sports Editor

PEN LETTER TO THE ENIGHTS OF THE PATIO

Quick smell flow many of you can while up a Fooder A La Ritis Flushes, a Rico Fflush Apparage to the Polishes of the Flushes and the Flushes of the Flushes

Here is the opportunity for you skillet-minded gentlemen to take the war into "enemy country,", to show the Queens of the Kitchen that your knowledge of cuisine extends beyond leathery steaks and scorch-ed hamburgs.

Some of you are good cooks—in your own right, have had some excellent meals in the sportsmen's unting lodges, fishing cabins and wherever men gather "get away from it all."

Now you can add the gourmet touch. With this knowledge you can grow ten feet taller in your bar-becue whites. You'll be the enry of "the gane" and the haus-fraus will have a new heldge club conversational piece, "Our Gournet Hubbles."

Thanks to the efforts of Dorothy Batchellor (Mrs.

She is the home economics director of the Poultry iducts of Canada Ltd., and has arranged a pro-m of four classes.

Chef Herbert Mueller, now of the Sun Valley Motor Inn., one of the finest cultarry experts to come to this city, will be in charge of the lectures-demonstration.

The "Gourmet Classes for Men" will also have the efit of the knowledge of Miss Rosemary Ballagh, home nomist of the Consumers Gas Company who organ.

"The Gent's Gourmet" course in Toronto.

The opening session of the "Gurmet School for Mem Galp" is scheduled for tomorrow night at the Etwanis Centre. 'Other sessions are sixted for Tues-days, April 8 and 27 and May 4th. Registrations take place at the "P" fonight and until 8.38 p.m. on-morrow and after that from 7 to 8 at Kivanio Centre.

There will be door prizes and food sampling, otter mention where you are going to the little we-am because I hear that the distaff side is a little put over the fact the cheese are for men only.

There have been cooking echools held in the city years but as far as you ever got was the front door the building where you deposited the lady of the house are that—well—how many times did you answer through the age-old question, "How did you like it?"

Now it is your turn. With your added gourned inowledge you can transform a steak into a "thing of beauty and a joy for a fow minutes." You will be able to wave your magic culturary wand over ordinary dishes and transform them into taste-buds

Incidentally German-born Chef Mueller is a past ster in his art. European chefs are the finest in world and Harr Mueller did not reach the heights by rely donaing a hat and apron.

He was apprenticed in Frankfurt, Germany, at-tended a trade ocheol, then worked several years in Switzerland, Coming to Canada he was "their exclusive" at the York Cith, Tuessio; then weiving for years in Semming, spirmed here and new service, at Quoest' University und the Hebit Quints befere pulse to the Swi Valley Motter her.

EXPERIMENT WITH SLEEP — David Hopper, a Winnipeg high school students, sleeps for the sake of science at Winnipeg General Hospital. The electrodes taped to his head record his depth of sleep on the electroenceptalograph. David is a classmate of Titor Bodi, Hermann Frunh and Bob Ellett, who keep an all-night vigil on a sleeping subject every Friday night. Object is to determine whether man can learn while he is assets.

#### Man's Home No Longer His Castle

Who says a man's home is his castle?

Not any more, it isn't.

Those who think otherwise are referred to adian Press story out of Toronto, where Mrs. Lil Rush operates a real estate firm on the motto "Think pink and wear mink."

It operates in a haze of pink (the traditional

It operates in a haze of pink (the traditional color for girds as opposed to blue for boys) and is staffed entirely by women.

Husbands, says Mrs. Ruth, will give in and buy house their wives like when the third person in the room is a woman.

Which may-explain why the traditional color for the male of the appeals is blue.

Nothing Mrs. Ruth is saying is really new.

Most of us, even the dense males of the species, have long been aware that the little woman picks out the family's abode these days.

The story, though, does serve to confirm a growing suspicion that this is really no longer a man's world.

Men should not raise too much fuss about

The ingrown male instinct for fair play should lead to general acceptance of the fait accompli, providing a couple of safeguards are

guaranteed.

First of all, something ought to be done
about the sales-manager types who recently have
gone on public record as encouraging women to
be greedy, because that makes their salesmen
husbands work harder to earn more commissions

nussants work narrier to earn more commissions for themselves—and to enhance the sales manager's reputation with his bosses.

Secondly, some revision ought to be made in the law's interpretation of that portion of the marriage yows in which a man endows his bride with all his worldly goods and accepts the legal obligation to provide her with the necessities of life.

More and more men are hedging on that More and more men are hedging on that piedge. Separations swell in number. The other night, on "This Bour Has Seven Days," a beyr of Vanouver women explained their inter-tions of seeking ways to force their former help-maks to contribute more to the support of children. Now no fair-minded person will oppose fathers being compelled to help pay for the cost of maintaining and educating their offspring. It is also true that in many cases today the deserted wife is shouldering much more than a fair load. Still, circumstances differ and in some cases the wife may be earning a bigger salary than her separated husband. What is needed is a revision of existing laws to bring them into line with changed circumstances, with a recognition that not only is a home no longer a man's castle but in many cases the hus band is no longer the real head of the household.

Today there are too many men who are evading their proper responsibilities and also too many other men whose separated wives, after the pattern of one on the "Seven Days" show, are mainly interested in seeing that their husbands have not enough money left to enable them to "run around." The wide variation in the outlooks of magistrates and judges on support cases makes for a wide variety of injustices.

#### Traffic Surveillance

Automobile accidents in Belleville last year caused a total of \$172,000 in property damage.

But more serious than any property damage was the cost in human suffering: five persons

and 118 injured.

killed and 118 injured.

Multiply these figures by the comparable statistics in other centres across the country and realize what a staggerting loss they represent.

According to Chief Constable J. B. Mc-Lauchhan, traffic surveillance in Belleville has been tightened. In his annual report he says that on-the-spot traffic checks have been increased: In 1894, he reports, more than 1,000 drivers were charged with speeding in the city—an increase of about 40 per cent from last year, or the commended, it is result in a part of the commended of the results of the country of the commended of the results of the country of the

driver is the greatest menace to safety on the highways today. Where Belleville is concerned its one-way system and lengthy main street are its one-way system and tengthy mind street are in some respects a disadvantage, for they are tailor-made for teenage showoffs who can find nothing better to do at nights than turn the city —Front Street in particular—into a drag strip. The lesson to be learned from the chief constable's report on traffic (and this is only

one aspect of his comprehensive annual study) is the need for the strictest surveillance of driving habits within the confines of the city.

#### To Your Good Health 'Farmer's Lung' Can Be Combination of Ailments

By JOSEPH G. MOLNER, M.D.

There is no way to predict. Some women have a succession of breech births — four in a row, so far as my memory goes. Other women have only

one such delivery and the rest are normal.

NAME THE STORE CONTEST

THE CONTEST ENDS SATURDAY, APRIL 3RD

By Geo. H. Carver Sports Editor

In case you did not know — they're making chey pucks today at least 100 percent "faster" in they did 15-20 years ago.

me fourteen former hockey players vouched is Sunday at Memorial Arens.

There were sounds of creaking and squeaking the aging hones lugged rounding tumaties up and ra the ice. A couple of bleycle pumps came is say for refuelling wind-blown warriors.

Tark Barciay and Bobby Green were the tar-ta for the afternoon and their buddles showed no trey in close. The Turk lost count after 23 pucks blasted past him. Bobby gave up at the 22 mark.

"Junior" managed somehow to reach the blue-line, then threw himself into reverse and headed back to the goal. He was stopping and starting so much he needed a brake relining job after the

"Nobber" Day who addressed the post-game gathering and spoke on a dozen topics from the Love Life of an Oyster to the Viel Nam situa-slem, was fairly fight. The "Nobber" sank a dozen pucks, hit Bobby Green II times and had six pear-

Johnny Semark who played under the shadow of 1945 fedora, matched the "Nobber" for speed and vit. Jackie Wardhaugh was in high gear as was Bouncing" Bruce Bishop.

Doug Green who always assumes the paternal role r the Holway flock, cavorted over the ice in huff f style. Huck Reeves doesn't appear to be re-ied too much by 38 years nor did Harry Wardhaugh Rollins, Bock Lyall and Jim Markle.

Jim, by the way, treks this way yearly from gars Palls to be back with the gang. Al and rule Meagher, Gerry Moher and Bill Holway were ong the missing because of other commitments.

The venerable coach, "Toots," was not on hand to a bowling championship tournament. But a proteges of 20 years ago did not forget him. yer also paid silent tribute to those of the club to have passed on.

Don Lee who was the official whistle tooter for the erew when they were free, white and not-twenty the, was on hand wearing the venerable "instru-ent" of his calling.

Jack Doran, a former coach, came in from Stirling le Fred "Musty" Reid, an executive member of the days, recalled many humorous and other incidents.

After the game the "younkers" creaked their way the Queens Hotel where they held the annual pow-r and made plans for next year's get-together.

Doug Green who loses hale every year, working out arrangements for the game-party, deserves a lot of credit. This year's session was one of the best and Doug handled the arrangements in his usual faulties manner.

A strong band of camaraderic welds this group of former juniors together. They average 38 years of age and as far as this agent knows is the only hockey club of the forties to hold annual reunions.

# Stratton Scoring Champion

BUFFALO (CP)—At Strai-ton, Separa-old left winger with Buffalo Binon, wen the 1884-84 American Hockey League scor-ing o has my ion a hip with 188 points, Straiton also led the 188 points, Straiton also led the 188 points, Straiton also led the 189 points, Straiton also led the 189 points, Straiton also led the 189 points, Straiton also led 189 points also led to led the league in goals with 60.

BUGS TABDITION
CLEARWATER, Fig. (AP)—
Unless president Warren Giles
of the National League rules
otherwise, Milwanbes Braws
will not take infined practice befores their games this season.
Meanage Bobby pain traditions by abolishing the rectime
this spring. He freis infield
practice is unnecessary and
eliminating it would be apprecisted by both players and fans.

# Bowls 2 Perfects In Match

KITCHENER (CP) George Boxwell, a 21 - year - old bowler, scored perfect five-pin games of 450 in two

games of 450 in two separate leagues Mon-day night.

Boxwell has been bowling for seven years at an average of about 25 games a

His scores for the evening were 450, 329, 296, 238, 239, 259 and He is entered in the

Eastern Canada bowl-ing final in Guelph April 15-17.

## Education for Indians

The Indians of Canada, we suggested recently, abould be making more progress. Government and the Indians should make a concerted effort of lift this problem out of the realm of spathy and indifference in which it has wallowed for

so long.

It may take a long time, but a start must be made sometime—preferably now.

Canadian students are quick to protest the treatment of Negroes in the United States. Do any of them give a thought to racial discrimination in this country—to discrimination against Indians for example?

monant for example?

How is the Indian to progress? One way is through education. Indian education at the moment is patchy and dropouts are frequent. Those who do graduate face the difficult world of the white man

Consider what has been achieved in another Consider what has been achieved in another apart of the Commonwealth—In New Zealand apart of the Commonwealth—In New Zealand apart of the Commonwealth—In New Zealand apart of the Color with the European and what color with the European and what color with the C

Educationally, the modern Maori benefits from the Maori Education Foundation which was established in 1962. With capital of nearly \$2,000,000, the foundation makes awards to students and helps to prepare the young Maori child for modern society with pre-school educa-tion. This it valuable training, for many. Maoris still find it difficult to adjust to the ways of the predominantly white society.

Last year the foundation assisted 544 child-

Last year the foundation assisted 544 child-ren and young people to continue their education at schools, universities and vocational training centres. They included 57 at university and were in addition to the many other Maoris atere in addition to the many other Maoris at-ading school in the ordinary way, at all-Maori or at integrated colleges.

In other words the Maori is being afforded cortunities to better himself in a manner that ist be the envy of his Indian cousins on this must so the envy of as indian cousns on the continent. The New Zealand government and the foundation are playing a big part in this. Most important, the Maori is being encouraged to play his part and the New Zealand Maori Council is co-operating by making education its principal activity this year.

## Alabama Murder

Viola Gregg Liuzzo, 39, civil rights worker alain in Alabama, is not the first woman to die for a cause in which she believed, and she won't be the last.

The brutal shooting of Mrs. Gregg—allegedly by Ku Klux Klansmen—is indicative of the fear and hate that still motivate a large section of the people of the deep south. Passage of the Civil Rights Bill will not dissolve these sinister

Four Klansmen have been arrested and the organization has been denounced by President Johnson as a "hooded society of bigots." As is customary on such occasions the indignation of decent citizens across the land and further afield goes hand in hand with the cynicism of those who would seek to excuse the murder.

Segregationist Governor Wallace contends that many persons on the march to Montgomery and some of the civil rights leaders were or are bers of communist-front organizations, and the Southern Christian Leadership Conference led by Dr. Martin Luther King, is the suc-cessor of another organization listed as subver-

And Robert Shelton Jr., a leading Klansman, said if Mr. Liuzzo had been "at home with the children where she belonged she would not have

chaires where she belonged she would not have been in jeopardy."

These are spurious arguments. True, the communists have infiltrated many organizations and it would be surprising it the Montgomery marchers did not contain their quota of fellow travellers. But this does not detract from the fundamental dignity and correctness of the civil rights cause.

Mrs. Liuzzo was the victim of premeditated murder by a person or persons who obviously had seen her driving civil rights marchers back and forth to Montgomery. If she had not been a target of the Klansmen's hate, someone else most assuredly would have been.

Let us cling to our principles as the mariner clings to his last plank when night and tempest close around him.—Adam Woolever.

BOOKS - OFFICE AND SCHOOL SUPPLIES 183-185 FRONT ST.

Are you unhappy because you didn't receive your income tax form? Are you unhappy because you lost it?

Cheer up. You can get one at the Post Office.

If you've changed your address, or did not file a return, last year, you likely won't receive an income tax form in the mail. It isn't that we forgot you. It's just that we don't know where you are - yet. So we've made sure that there are lots of extra forms at all local Post Offices (or If it's handier, your District Taxation Office). They aren't the new Personalized income tax forms. But you'll have that to look forward to next year.

DEPARTMENT OF NATIONAL REVENUE The Hon. E. J. Benson, Minister

Maybe you did receive an Income Ta Form in the mail and now you can't find it. Seems a pity to lose it. That was your Personalized form and it had

your own identification odenumberonit. Why don't you have one last look before you go to get another plain old everyday tax form from the Post Office.

MAILED TO YOU. COMPLETED BY YOU. RETURNED, BY YOU.

Arden

Considued a 1st for an it works are the weekend with an inbin made until the study was

By Geo. H. Carver Sports Editor

If the opinious of some trenty-three beckey from polled for their selections run to form, the Similay Can will read in Defruit this year.

You of the effectors, men and women, chose De-troit to take it all. Seven funcied the Maple Locks there the Canadians and two were faithful to the

Practically all those polled called for both semi-finals and finals to be lengthy affairs. . None ventured a prediction under five games in any series. The greater majority called for "stress and sevene."

The chorence of the fluid run for the larges years primpted predictions for long series. Not one hardy need during vestions a geome that my of the four chies would win in four straight.

Ed Hicholson picks Detroit over Chicago (6); Leafs or Canadians (5), and Leafs over the Wings in stx. Armend "The Great White Hunter" Duffy was teres and to the point, "Chicago all the way," Gerry Moher picked the Leafs the same way.

Gerry Joyce says Detroit over Chicago in five and the Leafs to best Montreal in seven for the cup.

Floyd Locks sees Montreal all the way. Don od picks the Hawks over Detroit in seven; Cana-ns over Leafs in six and the Habe over Hawks in six. Larmer Mason likes Detroit over Chicago in seven and the Leafs to turn back the Habs and Detroit, both

Mrs. Marion Andrews takes Detroit for the cup in ven games over the Leafs.

Editor Dick Payns says Chicago will best Detroit in seven, and Montreel will mantel the cup after down-ing Chicago in five.

That old Habs-disliker, our man Garry Alexander, 5 the Leafs over the Canadiens in six; Detroit over was in seven and the Wings to take it all from the fig in a helf-dopen title.

Tommy Mascaro, who is feeling much better, likes Red Wings over Chicago; the Leafs over Montreal, the Red Wings to win in seven.

Shells Alexander is a dyed-in-the-wool Toronto fan picks them to go all the way.

G. H. "Bud" Trill is a staunch Detroiter and sees the d Wings sweeping everything.

City Editor Claude Tice, a devoted Habs fan, sees nothing but Montreel whopping the Leafs in skr, Chicago beating the Wings in five and Canadiens wrapping up a six-game series over the Black Hawks.

"Toots" Holway sees the mug going to Detroit after rhipping the Leafs in a seven-game finals. He picks setroit over Chicago in five and the Leafs over Montreal a a half-dossn.

Gordie Bell picks exactly the same pattern with the Detroit-Montreal final going the limit.

That Leafs' lover, Lyle Thompson, sees the Punch-bunch hanging on to the allverware, disposing of Detroit in the seven-game final. He picks Detroit whipped Chicago in five and the Leafs to best the Habs in six.

Bill "Cassius" Cooney who won't look at a cow be-cause there are stockyards in Chicago, picks the Leafs over Detroit in seven; the same club over Canadiens in seven and the Wings over Chicago in six.

Allison Stickle, a gallant Leafian lady, picks the pronto crew to rejain the mug after beating Detroit all-out final.

On Stretch of Road Closed

PARRY SOUND, Out. (CP)— The Superior Anto Service plans to present a brief to the legislature calling for a nine-cent-s-gallon margin of profit on retail gasoline sales.

cut-e-gallon margin of profit on retail gasoline sales.

The Southery - based organization started a strike of service station operators Monday to protest removal of a one-cent gas rubidy by jell companies. Fifty-fire stations closed True-day to join 125 others that locked their pumps. Monday. The more virtually seale out attech of Highway 50 and 100 Elwood Smith, chairman of the service companization which is serviced as the companion of the service companization which are the service companization which are the companization which are the service companies. stretch of Highways 69 and 103 Elwood Smith, chairman of the service organization which claims to represent 60 per cent of the area's service stations, said a meeting agreed to sak for legislation to allow all On-

tario service a nine-cent-a-gallon profit on retail sales.

The brief will also sak the government to prohibit oil companies using company operated service stations to disable their own emission of concompany oper

# **FOOD SHOPPERS** ACROSS ONTARIO HAVE FOUND **ABOUT FOOD CITY SAVINGS**

More than 30 ladies (some of whom are shown below) in six different Ontario cities made the Food City comparison shopping test. First these ladies shopped their regular supermarket...then shopped the identical order at Food City. In every case substantial savings were made by these shoppers at Food City. Every major food chain was included in the tests. This week and every week you can save from 7% to 15% on your total weekly food bill at Food City.

For You, Your Family, Your Home

TV Buy in Canada

Regular

299.95 ......

Why is Silvertone your best 23" TV buy? Well to begin with the chassis is handcrafted to work better, last longer. Secondly, the Keyed Automatic Gain Control reduces wobble and flutter, Picture comes in sharp and clear. And thirdly, the Perna-tune features automatically adjust the fine tuning if channels are changed. Furniture styled cabinet in wood veneer finish.

Save 61.95! Transistorized **Stereophonic Combination** 

449.95 .....

The transistors generate virtually no heat . . . need no warm-up . . lengthen component life and cut down on costly servicing. Instantly you hear clear, life-like music from the extraog cabinet that gives greater sound separation to stereo records and FM stereo broadcasts. Hear it today.

#### Save 24.95 on 19" Portable TV

- Exciting luggage styling

#### Ladylike Look Showing in

#### New Handbags

Soft handbags and the soft "ladylike look" are ready to stroll arm in arm through this stylish spring. In the most elegant leather textures, and prettiest colors, the new handbags are fashloned with great lair and a new-found femin-

Inity.

Bag shapes are rounder, detailing is more delicate, and
leathers are more distinctive
than ever. Among the interesting leather textures this season, are grained, smooth, patent, emboxsed, waxy and succe,
reports Leather Industries of
America.

With fashion in a feminine nood, daytime begs - from the poch and box bag to the nursiops - dipplay a variety of charming touches. Cut-outs, with contrasting or printed unterlays, are used effectively. Scalloping, dainly brushed pold-hardware, and self-feesther trim are other style notes;

the soft quilted is ther Chanellook bag with its brightly shining gold chains, sometimes braided with matching leather. For the gal who likes to be casual, the unadorned satchel or tole in grained, waxy or monoth leather is the parfect answer. Simple—but mark arough to pass any fashlon order taste are trim, yet proorder taste are trim, yet proportioned to hold all the essention.

Want to beat the heat? Pick up a shirt in a bold new breed became speed, a brand new fabric blended of 75 percent bacrons polyetter, 30 percent colonia and 8 percent system. The high percentage of cotton increases the shortbeary and comfort, "faile the synthetic content insures quick-drying and no-broxing haracteristics. The next walls wave offers a new effect, Here, I a designed with a permanen-day offen colonia, in precise bloo-

#### Wall Suited

Shaping up in the sports show up sleeveless, the better rear picture are suit looks — to show off blouses with imit portant, fuller sleeves and excets, skirts and tops to put portant, fuller sleeves and exceter with ease.

Fashion-Tips On This 'n' That

Recent interviews of the nation's top beauty editors show that the popular new look in halfr styles is short but not shingled, wavey, but not "marcelled". The most importannew words, according to Litt Reference Service are finity, ruffled and canal curie.

Hair accessories will stage a hig comback in the next few months. New feminin hair styles are ideal for hows, berrettes, tiars and hair bands. Interesting new materials are being used for these such as leather-look plastics, braided and embroidered weaves and other bands of the second for the second secondtic times and the secondtic times are the the secondtimes are the secondtic times are the secondtic times are the secondtic times are the secondtic times are the secondtimes are the secondtic times are the secondtimes are the second-times are the second-times

Other hair fashion news inludes shorter cuts, and an emshasis on well-brushed, "swingng" shiny hair which complenent's today's femining nicture.

and are favoring off, malleabters, usedes and repsin newer smaller shapes, by bags feature fine little smaker pleats and tuck, are reminiscent of the uties. Shoulder bags conso in popularity, while othare dangled on short straps of pure silk linen. Pr chains. Offen bags have

THE ONTARIO INTELLIGENCER, Wednesday, Nov. 11, 1865 17

Ladylike elegance steps into spring in costumes like this one of pure still lines. Pale painley stilk tops the dress and trims the collar and notched lapels of the three-button Jacket. Skirt of the dress is eased to move with femining grace. From Abs Schrader.
